The PRI is generally following the Strategic Prevention Framework (SPF) as the overall planning framework for this process. Based on our learning from the Strategic Prevention Framework State Incentive Grant (SPF-SIG) process, for the purposes of PRI, we have added a “Getting Started” section and have included “Capacity” as an ongoing step throughout the process. **It is expected that all tasks associated with PRI will be conducted in a culturally competent manner.** This is not expected to be linear process.

Guide p. 2

Purpose of this Guide:

- Identify required tasks (marked “required”)
- Provide guidance, definition and clarification on each task category.

Included in this guide:

- General definitions
- A list of the required tasks and
- Clarification on each task category grouped by the SPF steps.

Note: Depending on the developmental stage and previous work completed by individual coalitions some required tasks may already be completed and can be incorporated into your PRI Strategic Plan. Specific tasks to be considered as “previously completed” must be approved by DBHR.

Primary sources of information used in developing Task Categories: Communities That Care, CADCA, [Coalitions and Partnerships in Community Health](#) (Frances Dunn Butterfoss), DBHR, preliminary evaluation information from Washington and national SPF-SIG project, SAMSHA/CSA.

What is a Coalition?

A formal arrangement for cooperation and collaboration between groups or sectors of a community, in which each group retains its identity, but all agree to work together toward a common goal of building a safe, healthy, and drug free community.

Who is a Coalition?

- Members (Sector Representatives) are local key players who represent and can function on behalf of their respective sector constituents to contribute to carrying out planning and strategies for the local community.
- Members (Sector Representatives) act within their own sphere of influence thus enlarging the coalition's ability to create needed change and implement multiple strategies.
- New members are invited to join in an effort to enlarge the coalition's sphere of influence and to gain needed capacity to address additional root causes
- Coalition staff assists with support for planning, problem solving and information management (evaluation, reporting, etc.).

Sectors:

- Youth
- Parent
- Law Enforcement
- Civic/Volunteer Groups
- Business
- Healthcare Professionals
- Youth-Serving Organizations
- Religious/Fraternal Organizations
- State/Local/Tribal Government
- School
- Media
- Other Substance Abuse Organizations
- Chemical dependency treatment*
- Mental Health services representative*

*Sector is recommended for participation in PRI, but is not a required sector for Drug Free Communities grantees.

Adapted from DFC grantee workshop.

Assessment

Guide p. 10

A. Conduct assessment: Coalition will establish a process and conduct assessment to compile data, review the information, ensure data is reflective of community demographics, and make recommendations for selection of priorities to full coalition. DBHR will support training and technical assistance to the assessment workgroups. Existing assessments specific to the community or coalition can be used initially to satisfy this requirement. However, a new assessment of needs and resources must be conducted and accepted by DBHR before the next contract period.

- *(Required)* Coalition will conduct a needs assessment and resource assessment.
- Needs Assessment:
 - Identify people in the community who have expertise and/or interest in data relating to youth risk and protective factors, substance use, and related community indicators of problem behaviors to complete task “Use state-provided and local data”. These may not necessarily be coalition members, but there should be some members from the coalition to help guide the work of the workgroup. Recommend 3-5 people for workgroup.

A. Conduct assessment: *(cont.)*

- Resource Assessment:
 - Identify members of the coalition who have knowledge of a wide range of providers of prevention related services. Recommend 3-5 people for workgroup.
 - Create a complete list with contact information of providers of all types of prevention-related services in the community.
 - Develop a process for requesting those providers to fill out the resource survey on PBPS. Follow-up with reminders until a 70% completion rate is achieved. For providers who are not willing or able to complete a survey, use workgroup members to gather the information and complete short survey in PBPS.
 - Using the report generated by the PBPS of the Resource Assessment, present findings to coalition. (Keeping this data up to date can be an on-going project of the coalition.)
- *Note: If plan has already been established this work group will re-visit and update current plan.*

B. Develop prevention strategic work plan: Coalition will develop a strategic work plan which incorporates the logic model, describes how community culture and demographics were considered in making selections, and how overall behavioral health considerations – substance abuse and mental health – are addressed. Coalition will develop an interim work plan that will guide coalition work until the final plan is developed and adopted.

- To complete the plan, coalitions will need to:
 - Describe their community culture and demographics and identify what needs to be done to ensure selected initiatives are appropriate for the residents of the community.
 - Identify anticipated barriers to implementation and strategies for overcoming those barriers.
 - Identify timelines for implementing selected environmental and direct prevention service projects and key implementation benchmarks.
 - *(Required)* The coalition will submit their strategic work plan, along with its logic model, to DBHR for approval.
- *(Required)* Coalition will complete “Community Profile” with DBHR.

Community Selection Criteria

- Among the communities with the highest risk scores
 - Consider the number of indicators with data: Risk scores based on few indicators should be interpreted with caution.
 - Example: school districts not participating in HYS
 - Target communities with high levels of poverty and more troubled families
