Topics	Questions/Discussion/Decisions
Welcome/Introductions	• We expect to have 52 communities and are now 2/3 of the way there. • DBHR will have data for choosing communities for Cohort 2 in October.

PRI Overview	• DBHR presented a PPT of PRI purpose, objectives, timelines and expectations, which is available at www.TheAthenaForum.org
How to access Athena Forum	• Let Sarah Mariani know if you would be willing to help beta test the Athena Forum website to make it easier to use.
Training and Task Categories	- Getting started – register on The Athena Forum. - Notify Media – we have a template you can use to let your community know about your PRI funding and goals. - Capacity - Key leader orientation event -coalitions tend to be more successful when they start off with a unified understanding of how everyone will go forward (common language, theory, roles, etc). - If these coalitions can also reach out to key leaders in their community, they are more successful. - The tasks will be done over time, with guidance on when they should happen - Timeline overview is a suggestion on when to logically roll items out - Training Plan – Key leader is one of the onsite trainings; needs assessment training module; community planning. Your DBHR PRI Manager will provide assistance as needed, or will find someone to provide T.A. - These tasks will become part of your strategic plan.

Meeting Schedule	• This was sent out via email. Oct 27, 9:30-4 will be next in-person meeting in Yakima.
	• The other meetings will occur from 9am -12pm on the following dates:
	    o December 1
	    o Jan 5 -K20
	    o Feb 2 -K20
	    o Mar 1 -K20
	    o Apr 5- K20
	    o May 3 -in person
	    o June 7 - K20
	Meeting dates are for both Cohorts. First hour will be Cohort 1, second hour will be DBHR business for both Cohorts, third hour is for Cohort 2.
	Marcia: Are we still having the All Provider meeting? Yes, it will be combined.
	
	PRI name: when we come up with a name that better describes what we are doing and where we are going, the name will change. If you have ideas about renaming the initiative, let DBHR know.

| Questions | Are the data sources or priority list for communities going to be revised? DBHR: The 2010 information will be in there – we are talking about increasing the weight of the substance abuse prevalence data, so this part will change, as well as the updated data. When going through the data process, will DBHR weigh indicators? DBHR: We are creating our composite scores differently, so if you are missing parts of the data, the final composite scores will be more balanced. Spokane: Is this data now available on Athena? DBHR: It will be handed out at the meeting in Yakima in Oct. 105: We are interested in seeing how the data will look for our county – we have been looking at the Athena site data and looking ahead. 189: We want to be clear on the cash match – do we ask for 20 percent ? DBHR: Yes. 171:   Who do we work with on the cash match? DBHR: Work with the ESD. |
