

# Substance Abuse Prevention & Mental Health Promotion: Schools & Community

Student Support Conference  
May 13, 2016

Julia Havens, Prevention System Implementation Manager  
Division of Behavioral Health and Recovery  
Washington State Department of Social and Health Services

Bill Evans, Program Consultant  
Student Support Programs, Secondary Education  
Office of the Superintendent of Public Instruction

Washington State  
Department of Social  
& Health Services

*Transforming lives*

# **WELCOME AND INTRODUCTIONS**

Brief Overview

# **COMMUNITY PREVENTION & WELLNESS INITIATIVE (CPWI)**

## CPWI Purpose

---

- The DSHS Division of Behavioral Health and Recovery (DBHR) is committed to **its partnerships**.
- DBHR is committed to provide **effective prevention** services.
- DBHR anticipate CPWI will help **leverage resources** and focus and concentrate its efforts.
- CPWI will
  - have a deeper impact,
  - better measure those impacts, and
  - build support for additional investments in prevention.

## CPWI Framework based on...

---

- The **Strategic Prevention Framework (SPF)** was developed by the federal SAMHSA based on a proven effective prevention planning system '**Communities That Care**'<sup>®</sup> (CTC) .

# CPWI Objectives

---

## **Selected communities will:**

- Designate a community coordinator.
- Use evidence-based capacity building.
- Implement proven environmental strategies and targeted direct services, programs and policies through a prevention coalition.
- Partner with school-based prevention/intervention specialists.
- Evaluate chosen programs, policies and community-level change, and participate in statewide evaluation.
- Receive technical assistance from DBHR.
- Support state efforts to reduce youth access to alcohol, drugs and tobacco.

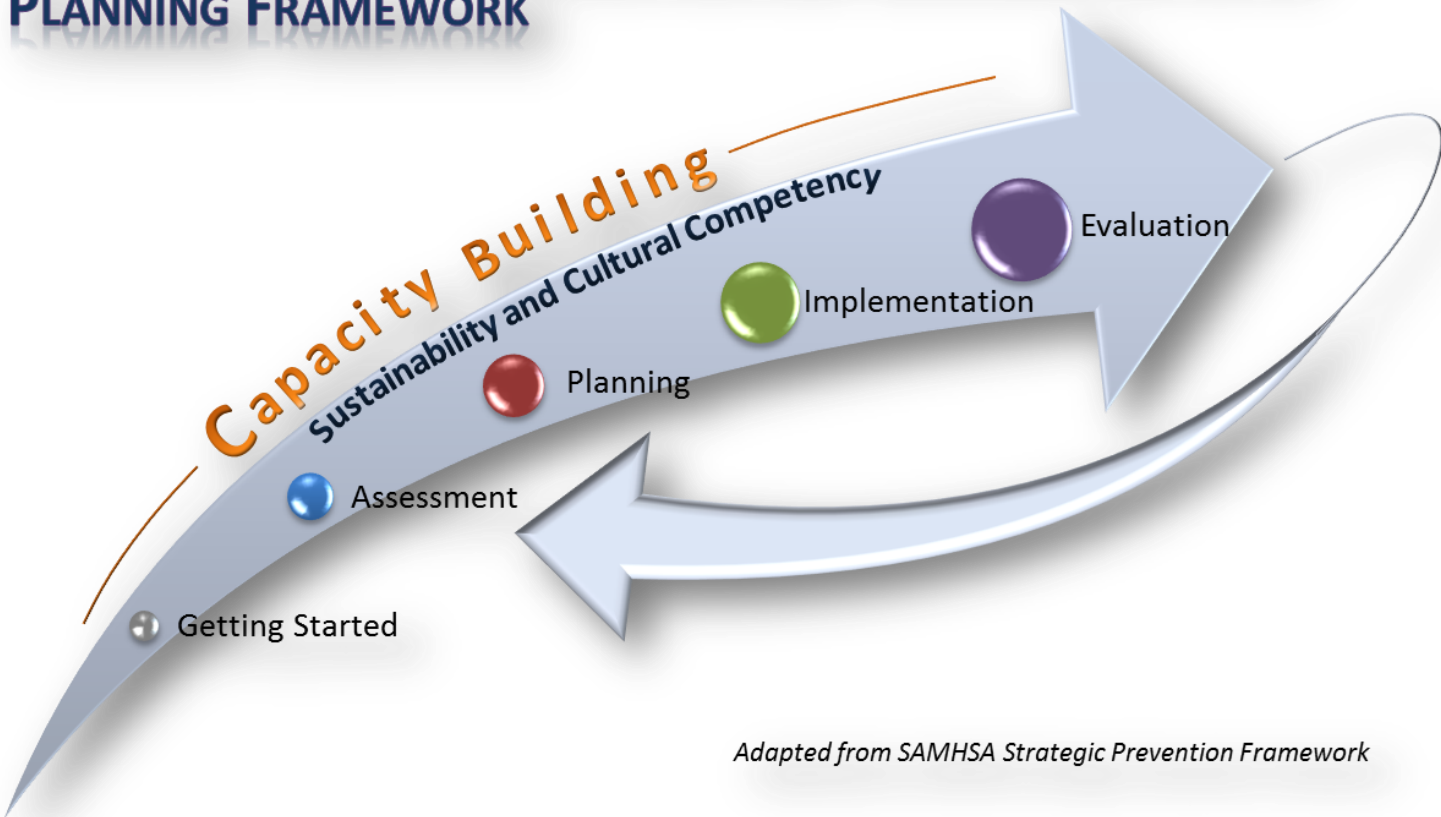

## Key Strengths

---

- Promotes healthy youth development by engaging all areas of the community.
- This planning process is community.
- Guides communities to select community actions, policies and programs with demonstrated effects.
- Specifies outcome objectives to ensure accountability for resources used.
- Collaboration with school system.

# Planning Framework

**Friends Who Engage in the Problem Behavior -22**  
**Early Initiation of Use -19**  
**Bonding - 12**  
**Intentions to Use – 5**  
**Healthy Beliefs/Clear Standards - 1**

Community lacks cohesion and is disorganized to address SA prevention - 30  
Lack of local resources in community to address many concerns - 11

Increase in retailers due to laws to increase alcohol sales (I-1182) and marijuana retail market (I-502) - 11

Alcohol & other drugs are prevalent at community events & home  
Substances are easily accessible at home -14  
Youth Substance Use is a Cultural Norm – 14  
Ad placements that appeal to youth and lack of clear messages in the media - 6

**Family Domain**  
Parental attitudes tolerant of substance use - 20  
Limited resources for families – 13  
Inconsistent messages related to SA/Lack of clear consequences-12

**School Domain**  
Absenteeism, skipping school and low commitment-4  
Lack of consistent school enforcement - 4

**Individual Peer Domain**  
Youth do not see substance use as risky or dangerous, they do not think they will get caught – 29  
High perception that friends/peers use substances -12

**Community engagement/Coalition development:**  
All Coalitions

**Public Awareness: 52**  
Social Norms Campaign -17

# CPWI Deliverables

---

- Implement performance-based contracting with CPWI coordinators
- 5 year Strategic plans
  - Annual Action Plans and Budgets
- Implement Evidence-based, Research-Based and Promising Programs as well as innovative programs to meet needs
- Full-time Prevention/ Intervention Services in school
  - Engagement in Coalition

# **OVERVIEW OF TRAINING & TA SYSTEM**

# Technical Assistance/Training system

---

- DBHR Prevention System Managers provide:
  - Regularly and timely technical assistance to the CPWI and Tribal prevention coordinators
  - Technical assistance and training to tribal communities:
    - Planning and development
    - Consolidated contract compliance
    - 7.01 Planning
  - Ongoing, monthly, technical assistance to CPWI communities:
    - Strategic plan development
    - Action plan updates
    - SPF implementation
    - Contract compliance

# DBHR TA System

---

## **Technical Assistance/Training system**

- In addition to the live technical assistance provided by DBHR staff, we support a workforce development and capacity development website (TheAthenaForum.org) for substance abuse and mental health promotion professionals.

### **The Athena Forum site features:**

- priority pages of interest and focus
- state prevention five-year strategic plan
- electronic-learning modules & training slides
- announcements & calendar
- shared documents
- blogging
- information on the Prevention Specialist Certification Board of Washington

[www.TheAthenaForum.org](http://www.TheAthenaForum.org)

## ATHENA

known for wisdom, strategy and skill

[Sign In](#) [Join Now](#)

The site for substance abuse prevention professionals and volunteers who want to become better at what they do.

[Offers of funding and/or help from the marijuana industry???](#)  
2 weeks 16 hours ago

There have been recent discussions in the prevention community regarding how to respond to the marijuana industry's offers to provide us with funding and/or help. As an example of a funding offer, Neighborhood House, the fiscal agent for the Southeast Seattle PEACE Coalition, was approached by an ad firm representing the legal cannabis industry, who said: "I am the president of an advertising agency that specializes in promoting social programs, and I represent several..."

# Evidence-Based Workgroup

---

## Evidence-Based Policies, Programs, and Practices

Current Evidence-Based Policies, Programs, and Programs must meet the criteria below:

1. Programs and strategies in this list must be shown in at least two studies to produce intended results;
2. All programs listed include ‘substance abuse prevention’ as an area of interest; and
3. The strategies described in this list come from at least one of the following primary resources:
  - a) Substance Abuse and Mental Health Services Administration’s (SAMHSA) National Registry for Evidence-based Programs and Practices (NREPP);
  - b) A separate list of programs identified as evidence-based by the State of Oregon; or
  - c) “Scientific Evidence for Developing a Logic Model on Underage Drinking: A Reference Guide for Community Environmental Prevention.” Pacific Institute for Research and Evaluation (PIRE).

## Prevention Programs and Practices for Youth Marijuana Use Prevention (for DMF CPWI Enhancement Services)

Note: No less than 85% of DMF funds can be used to support Evidence-Based and Research-Based Programs and no more than 15% of DMF funds can be used to support Promising Programs from the list below.

### Evidence-Based & Research-Based Programs

- Good Behavior Game (GBG)\*
- Nurse Family Partnership (NFP)\*
- Brief Strategic Family Therapy
- Case Management in Schools\* (Communities in Schools, City Connects, and Comer School Development Program) (see note below)
- Guiding Good Choices\*
- Incredible Years\*
- Keepin it Real
- Life Skills Training - Middle School
- Lions Quest Skills for Adolescence\*
- Mentoring for students: Community-based\* (Across Ages, Big Brothers Big Sisters, The Buddy System, Career Beginnings, Sponsor-a-Scholar, and Washington State Mentors program/Mentoring Works Washington. Locally developed programs may be considered but require DBHR approval and consultation with WA Mentors.)
- Project Northland (Class Action may be done as booster)
- Project STAR
- SPORT Prevention Plus Wellness
- Strengthening Families Program: For Parents and Youth 10-14 (Iowa Version)\*

### Promising Programs

- Athletes Training & Learning to Avoid Steroids
- Communities that Care
- Coping Power
- Curriculum-Based Support Group (CBSG) Program\*
- Familias Unidas
- Positive Action\*
- Project Toward No Drug Abuse
- PROSPER
- Raising Healthy Children (using SSDP model)
- Strong African American Families
- Teen Intervene

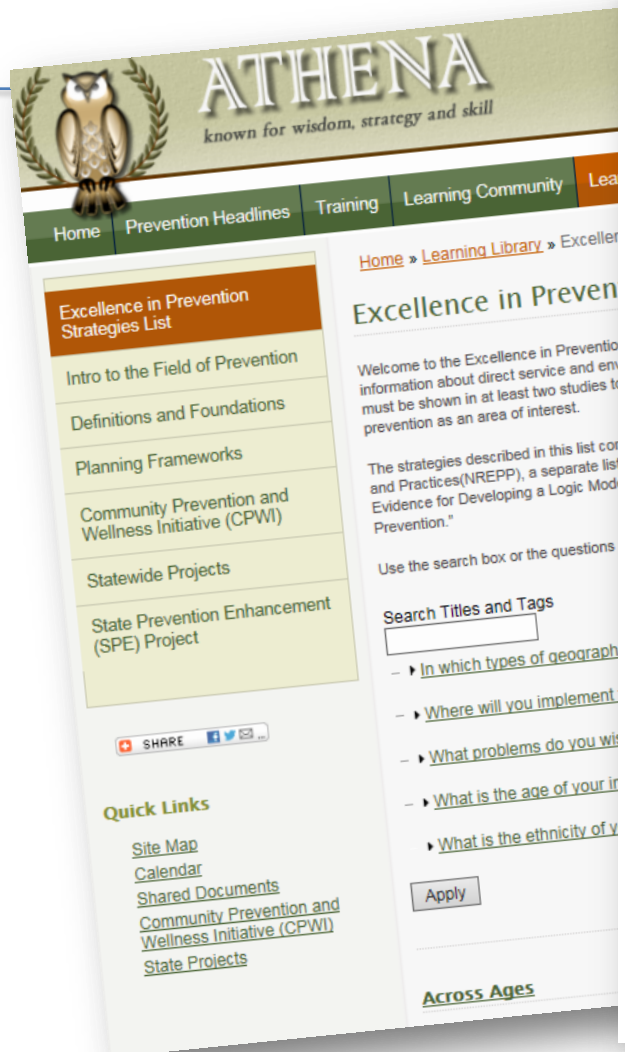

### Environmental Strategies (Promising)

- Policy Review and Development
- Purchase Surveys coupled with Reward and Reminder
- Restrictions at Community Events
- Social Norms Marketing

#### Notes:

- (\*) These programs are also programs with Mental Health Promotion areas of interest and outcomes as found on NREPP.
- Case management involves placing a full-time social worker or counselor in a school to help identify at-risk students' needs and connect students and families with relevant services in and outside of the K-12 system. Three such models have been evaluated and are included in this analysis: Communities in Schools, City Connects, and Comer School Development Program. In practice, each of these models includes other services, but the program evaluations focus on the impact of the case management component.
- DBHR would like to thank the University of Washington's Social Development Research Group; Kevin Haegerty, Ph.D.; Rico Catalano, Ph.D.; Daniel Gannon, graduate student; Washington State University; Laura Griner Hill, Ph.D.; Brittany Rhoades Cooper, Ph.D.; Angie Funaiolo, graduate student; and Eleanor Dizon, graduate student; the Washington State Institute for Public Policy; Steve Aos, Director; Annie Pennuchi, Assistant Director; Adam Darnell, Ph.D.; Marna Miller, Ph.D.; Matt Lemon; the Pacific Institute for Research and Evaluation; Sean Hanley, Ph.D.; and the Washington State Prevention Research Subcommittee for their consultation, program search and review contribution efforts, and overall generous support in developing this list.

**Excellence in Prevention** – descriptions of the prevention programs and strategies with the greatest evidence of success

## Name of Program/Strategy: Across Ages

### Report Contents

1. Overview and description
2. Implementation considerations (if available)
3. Descriptive information
4. Outcomes
5. Cost effectiveness report (Washington State Institute of Public Policy – if available)
6. Washington State results (from Performance Based Prevention System (PBPS) – if available)
7. Who is using this program/strategy
8. Study populations
9. Quality of studies
10. Readiness for Dissemination
11. Costs (if available)
12. Contacts for more information

### 1. Overview and description

Across Ages is a school- and community-based substance abuse prevention program for youth ages 9 to 13. The unique feature of Across Ages is the pairing of older adult mentors (55 years and older) with young adolescents, specifically those making the transition to middle school. The overall goal of the program is to increase protective factors for high-risk students to prevent, reduce, or delay the use of alcohol, tobacco, and other drugs and the problems associated with substance use. The four intervention components are (1) a minimum of 2 hours per week of mentoring by older adults who are recruited from the community, matched with youth, and trained to serve as mentors; (2) 1-2 hours of weekly community service by youth, including regular visits to frail elders in nursing homes; (3) monthly weekend social and recreational activities for youth, their families, and mentors; and (4) 26 45-minute social competence training lessons taught weekly in the classroom using the Social Problem-Solving Module of the Social Competence Promotion Program for Young Adolescents developed by Roger Weissberg and colleagues.

1

*Excellence in Prevention* is a project of Oregon Addiction and Mental Health Services and Washington Division of Behavioral Health and Recovery. Information is drawn from many sources, including the National Registry for Effective Prevention Programs (NREPP), sponsored by the Center for Substance Abuse Prevention.

# Data Support

---

## State Epidemiological Workgroup Support:

- RDA Core GIS
- Data Books
- Risk Profiles
- Community Survey
- HYS Factsheets
- State-level Needs Assessment
  - Prevention Policy Consortium

### Community Demographics

The racial/ethnic and age composition below can help prevention planners better understand the community's diversity.

#### Race or Ethnicity (Count, Percent)

Persons whose race or ethnicity is: (1) "White" - non-Hispanic White; (2) "Asian" - non-Hispanic Asian or Pacific Islander; (3) "Black" - non-Hispanic Black/African American; (4) "Hispanic" - Hispanic or Latino of any race except American Indian/Alaska Native; (5) "Native American" - any American Indian/Alaska Native, whether Hispanic or non-Hispanic; as a percentage of all persons.

#### Age Composition (Count, Percent)

Children (ages 0 to 9, 10 to 14, and 15 to 17 years), adults (ages 18 to 24, 25 to 49, and 50 to 64 years) and seniors (ages 65 years or more) as a percentage of all persons.

## Youth Alcohol Use in Grays Harbor County in 2014

### Are OUR youth using alcohol?

#### Current Drinking

Students who report drinking at least once in the past month

#### Experimental Drinking

Students who report drinking on 1-2 days in the past month, but no binge drinking

#### In a Vehicle

Students who report drinking and driving OR riding with a driver who had been drinking

■ Drove after drinking ■ Rode with drinking driver

#### Problem or Heavy Drinking

Students who report drinking 3 or more days in the past month and/or one or more binge drinking episodes\*

\*Binge drinking is drinking 5 or more drinks in a row in the past two weeks.

### Where Do They Get It?

## CPWI Evaluation – Data Sources

---

- Community Outcomes and Risk Evaluation Geographic Information Systems (CORE GIS)
- Washington State Healthy Youth Survey
- National Survey on Drug Use and Healthy
- Behavioral risk Factor Surveillance System
- Programs implemented
- Prevention Intervention Services (OSPI)

OFFICE OF SUPERINTENDENT OF PUBLIC INSTRUCTION

5/24/2016

- 
- 60 + Sites
  - More being added
  - More than 60 schools
  - In each ESD
  - In every county
  - Large to small schools

# WHY?

“We will build the health and wellness of individuals, families, schools, and communities where people can be as healthy as possible in a safe and nurturing environment” (WA State Prevention Enhancement Policy Consortium).

## INTENTION IMPACT

# WHY?

## Intervening Variables and Risk/Protective Factors

---

- Access/Availability
- Enforcement
- Policies
- Perception of Harm
- Community Norms
- Traumatic Experiences
- Which ones can schools affect?

How can schools help address these?

# WHY?

## Strategies

---

- Cross-systems planning/collaboration
- Information dissemination
- Policy/Community norms
- Problem identification and referral
- Community engagement/coalition development
- Education

Roles of school-based efforts?

# WHY?

## Reduce Community and Family Outcomes

---

- Underage Drinking
- Prescription Drug Misuse/Abuse
- Marijuana Misuse/Abuse
- Depression
- Suicide ideation

### TO INCREASE

- School Climate / School Safety
- Mental Health Awareness
- Graduation Rates and Academic Success

# TO ADDRESS.....

---

- Nearly 1 in 5 12<sup>th</sup> graders say they have been drunk or high at school
- About 1 in 5 students rode in a car with a driver who had been drinking
- Marijuana use among 10<sup>th</sup> (20%) and 12<sup>th</sup> (27%) graders is double the % of those who smoke cigarettes
- Perceived risk of harm is going down
- Over 100,000 students (12-17 yrs. old) considered suicide – 1 in 6 students
- Graduation rates – last at 20%

# HOW?

---

- SAPISP (Student Assistance Prevention – Intervention Services Program)
- P.I.'s/SAP's in at least one Middle or High School in each CPWI site
- Sometimes additional FTE. may service more than one site within the CPWI community
- ESD employee – Hired and supervised by ESD prevention coordinator, directors, or directors
- Full school year of intervention services
- Trained, certified intervention specialist

**One Whole Child Approach**

OFFICE OF SUPERINTENDENT OF PUBLIC INSTRUCTION

5/24/2016

# PROGRAM GOALS

---

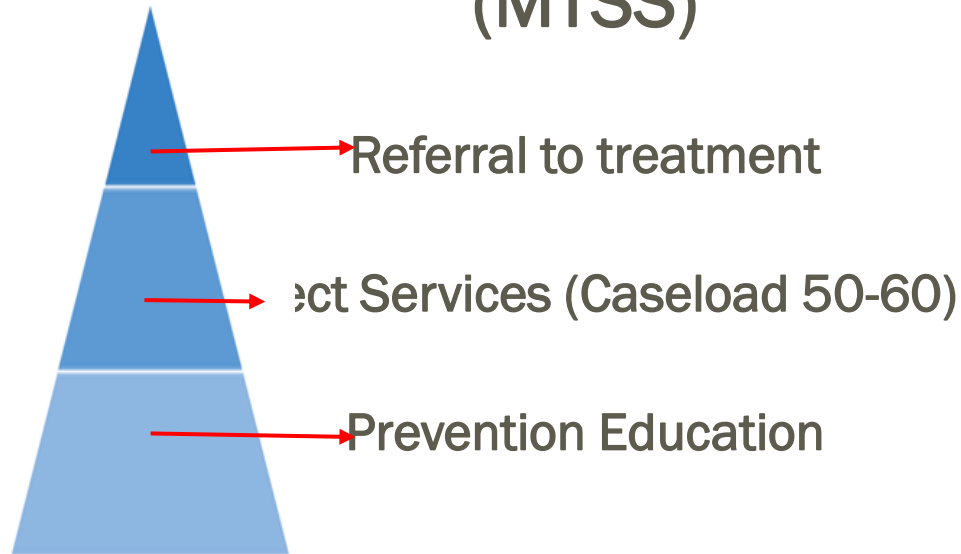

- To provide early drug and alcohol prevention and intervention services to students
- To provide high quality prevention and intervention programs to support a safe learning environment for all students
- To develop collaborative relationships with treatment agencies to better serve students

# ANOTHER WAY TO LOOK AT IT

---

## Multi Tiered System of Supports (MTSS)

# Substance Abuse Prevention Strategies

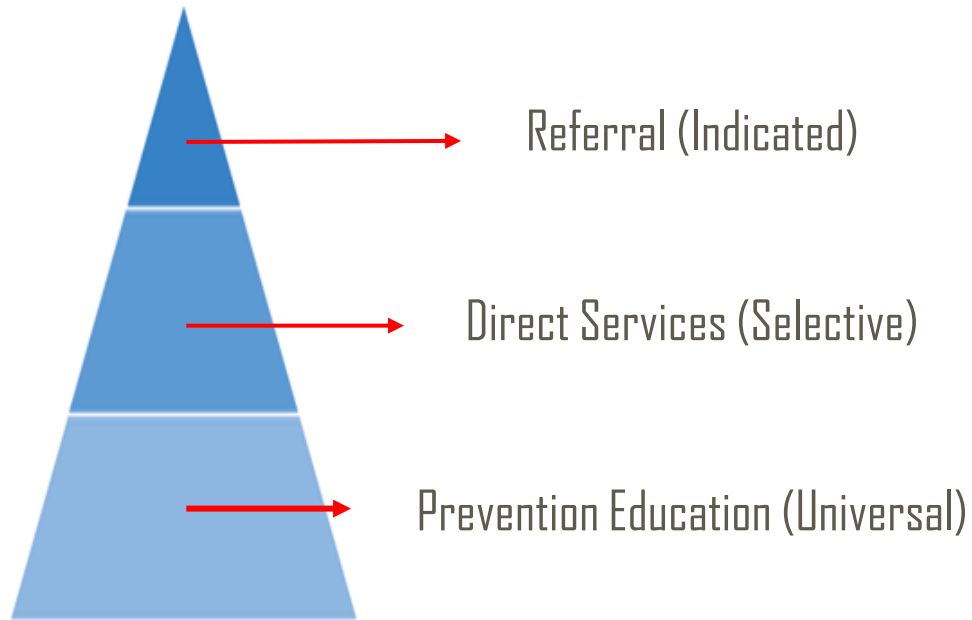

---

- A. **Information Dissemination:** Provide knowledge and increase awareness. Generally one – way. Part of prevention education
- B. **Education:** Structured learning process about critical life and social skills (decision making, stress coping, problem solving, etc..)
- C. **Alternatives:** Provides students with participation in activities that exclude alcohol, drugs, etc. and focus on healthy activities. (including prevention clubs, etc.)
- D. **Problem Identification and Referral:** Actually identifies users and specific intervention or referral strategies employed.
- E. **Community-Based Process:** Collaborative and grassroots empowerment
- F. **Environmental:** Establishes or changes written or unwritten community, school standards, codes, policies, etc.

# HOW, AGAIN?

---

# PREVENTION EDUCATION (Universal)

---

- Establishing a mindset of positive social norms
- Provide students with information to increase their knowledge of harmful effects of alcohol and drugs, and talk about healthy living choices
- Provided to all incoming grade students at the beginning of the school year, or 2<sup>nd</sup> semester
- Multi-session, ATOD focused, knowledge and basic skill development

# PREVENTION EDUCATION (Universal) Cont.

---

- Relationship building opportunity
- Referral and selection
- Project SUCCESS, LifeSkills Training, and other interventions
- Approximately 20% of the P.I.'s time.
- Prevention clubs and other student engagement activities

# DIRECT SERVICES (Selective)

---

- Referrals (self and others)
- Discipline Referrals
- “Recruiting”

**Recruiting**  
**NOW**

# DECISION

---

1. “Quick” Intervention (1-2 contacts) – minimal risk, no use. Refer to other services (school counselor, tutoring, etc.)
2. “Full” Intervention – Start with screening (GAINS5, interview, etc..). Minimal, moderate or high risk?
3. Determine services (Individual, group, refer to other services) for minimal, or moderate risk/need
4. If high risk (“Indicated”), determine strategies for school (SAPISP) services, OR refer to mental health, other treatment, or similar more involved services

# GROUPS

---

- Selected by P.I.
- Improve not Cure
- Closed vs. Open
- Specific / Intentional Activities
- Student Centered
- Solution Focused
- Form and Practice New Behaviors
- Time Limited (8-10 sessions)
- Intentional "Transforming/Termination" Strategies

# REFERRAL (Indicated)

---

- When indicated, students should be referred to other, more specific and involved services such as mental health, etc.
- P.I. provides case-management / facilitator role
- P.I. provides "re-entry" services

# AND WHAT ELSE?

---

- School and P.I. involvement in coalition
- Professional development for school staff
- Climate change
- Continued relationship building
- P.I. and SAPISP is part of the “big picture”!

# QUESTIONS/DISCUSSION

---

Take – Aways?
