

County Community Risk Profile (2018): Yakima

School District	Population: 10-17	Risk Ranking		Risk Category Rank		Contextual Indicators	
		ATOD Risk Percentile	Indicators with Data	Consumption (ATOD)	Consequence	Economic Deprivation	Troubled Family
Grandview	2,093	98	21	Very High	Very High	Very High	Low
Mount Adams	663	94	21	Very High	High	Very High	Very High
Mabton	573	93	21	Very High	High	Very High	Low
Yakima	9,146	92	21	High	Very High	Very High	Average
Sunnyside	3,607	89	21	Very High	Average	Very High	Low
Highland	782	88	21	High	High	Average	Low
Granger	1,042	84	21	High	High	High	Low
Wapato	2,041	72	21	Average	Average	Very High	High
East Valley (Yakima)	1,881	55	21	Average	Average	Average	Average
Toppenish	2,086	53	21	Average	Average	Very High	Average
Selah	2,145	50	21	Average	Average	Average	Average
Naches Valley	918	43	21	Average	Average	Average	No Data
West Valley (Yakima)	3,251	34	21	Average	Average	Average	Low
Zillah	757	15	21	Low	Low	Average	Low

NOTES:

This risk profile reflects the risk levels of this county as of February 2018. School districts with no high schools are not included in this summary. Please note risk levels and risk rankings may change over time.

The ATOD consumption risk score is calculated from prevalence of alcohol, tobacco, and other drug use. The consequence risk score is calculated from school performance, youth delinquency, and mental health indicators. The overall risk ranking is not computed if either consumption or consequence score is missing.

A Risk Category Rank of "Very High" indicates the referenced School District Risk Score was in the top 10% of School Districts in the risk Category.

A Risk Category Rank of "High" indicates the referenced School District Risk Score was in the top 25% of School Districts in the risk Category.

A Risk Category Rank of "Average" indicates the referenced School District Risk Score was between 25% and 75% of School Districts in the risk Category.

A Risk Category Rank of "Low" indicates the referenced School District Risk Score was in the bottom 25% of School Districts in the risk Category.

A Risk Category Rank of "Very Low" indicates the referenced School District Risk Score was in the bottom 10% of School Districts in the risk Category.

Review Considerations

- 1) To get an overall sense of risk severity for both consumption and consequence, examine the "Risk Percentile". It reflects what % of School District had a Risk Score LOWER than the referenced School District.
- 2) To ensure that the risk score is meaningful, examine the "Indicators with data" column. Risk scores based on few indicators should be interpreted with caution. In total, 26 indicators were used.
- 3) To consider other contextual information, examine the "Population: Age 0-17", "economic deprivation" indicator, and the "troubled family" indicator. Note the "Population 0-17 year olds" value will be greater than district enrollment as it accounts for kids not in school as well as those in private schools.

Marijuana Composite Ranking

by School District, Yakima County, 2018

Composite Risk Ranking

Very High 90 - 99	Average 25 - 74	Very Low 1 - 9	School Districts	Highways and Major Roads
High 75 - 89	Low 10 - 24	No data	Counties	Water Bodies

DATA NOTES: The percentile of the composite risk scores. The composite risk scores were calculated using standardized indicators in marijuana consumption and consequence. Cartography: Irina Sharkova.
