---

---

---

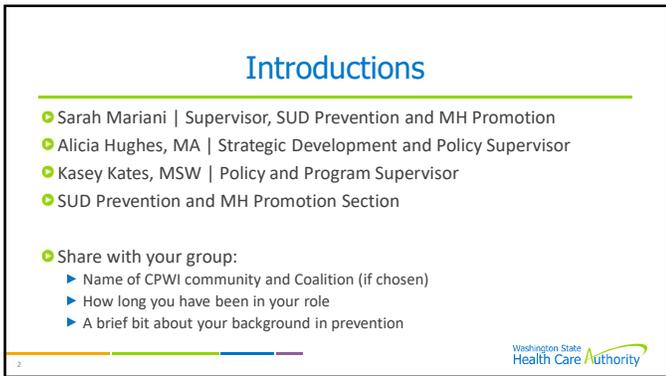

---

---

---

---

---

---

---

---

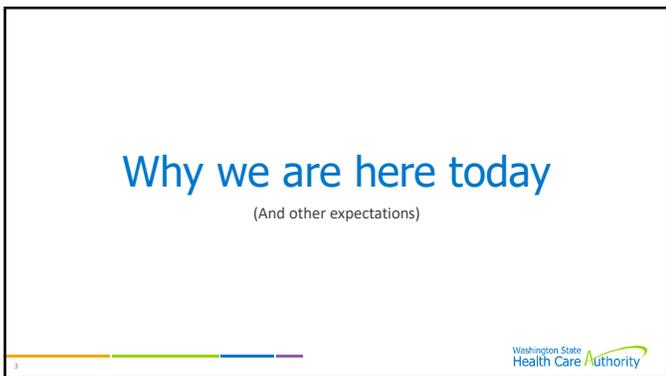

---

---

---

---

---

---

---

## We are here today...

- To introduce prevention science theories and CPWI framework
- To increase knowledge of purpose and process of Community Prevention & Wellness Initiative (CPWI)
- To review the Community Coalition Guide and CPWI tasks
- To foster communication and collaboration among Coordinators
- To understand the Strategic Planning process
- To understand available training and resources

---

---

---

---

---

---

---

---

## Training expectations

- What do you need for this training to be successful?
- How will we communicate in this training?
- How can you feel ownership over this process?

---

---

---

---

---

---

---

---

## Walk through of binder

- Handouts
- CPWI Guide
  - ▶ Review chapters
- Training documents

---

---

---

---

---

---

---

---

## The Athena Forum | [www.TheAthenaForum.org](http://www.TheAthenaForum.org)

---

---

---

---

---

---

---

---

---

---

## Introduction to prevention science

Science, theory, risk + protective factors

---

---

---

---

---

---

---

---

---

---

## Coordinators need to know prevention theory

- This will allow you to guide your coalition through the tasks associated with reviewing, analyzing and prioritizing problems in your community.
- It will also help you to explain to the community as a whole why the coalition is supporting one strategy and not another.
- It is NOT necessary for all of your coalition members to know as much as you know.

---

---

---

---

---

---

---

---

---

---

## What is prevention?

- The Prevention Story – told by you!
- In prevention, we go upstream to look for the cause and try to prevent that from occurring.
- The coalition makes sure that happens.

---

---

---

---

---

---

---

---

## Continuum of care

---

---

---

---

---

---

---

---

## Promotion & Prevention

---

---

---

---

---

---

---

---

### IOM: Universal, selective, indicated examples

- Universal programs reach the general population such as all students in a school or all parents in a community.
- Selective programs target groups such as children of substance users or those who display problems at school and have an above-average risk of developing substance use issues.
- Indicated programs are for those whose actions— for example, antisocial or other risky behaviors such as truancy, academic failure, or hanging out with peers who misuse substances—put them at high risk for substance use issues.

---

---

---

---

---

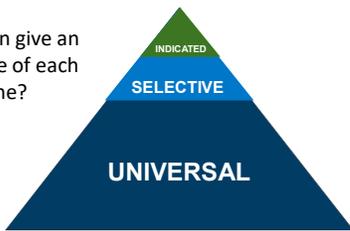

---

---

---

### Universal, selective, indicated programs

Who can give an example of each one?

---

---

---

---

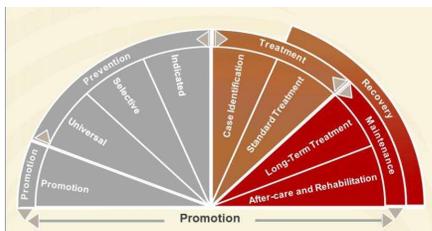

---

---

---

---

### Treatment and Maintenance

---

---

---

---

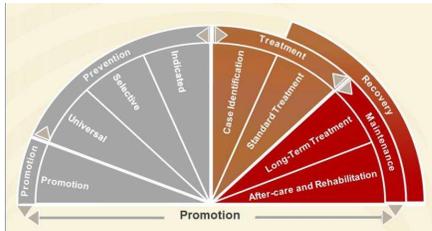

---

---

---

---

### Discussion: Continuum of Care

Washington State Health Care Authority

---

---

---

---

---

---

---

---

### The prevention framework is based off...

- The Public Health Approach.
- Intervening Variables, Risk and Protective Factors, and the Social Development Strategy.
- Contributing Factors and selection of Evidence-based Prevention Strategies.

Washington State Health Care Authority

---

---

---

---

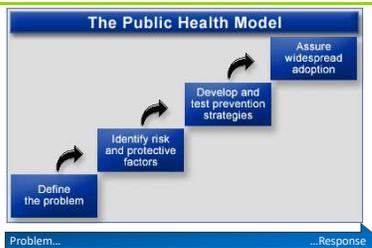

---

---

---

---

### The Public Health Approach

Washington State Health Care Authority

---

---

---

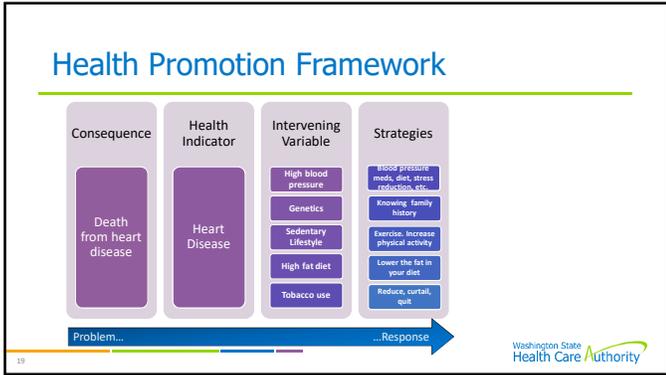

---

---

---

---

---

---

---

---

---

---

---

---

---

### Intervening variables

- Intervening Variables:** Characteristics that are strongly predictive of underage drinking and substance abuse. They are characteristics of the community that are likely to influence youth substance use and abuse.
- Examples:**
  - Alcohol availability (ease of access; usual sources; retailers)
  - Promotion of alcohol
  - Alcohol laws (enforcement; penalties)
  - Community norms (acceptability among peer and community)
  - Risk and protective factors

20

Washington State Health Care Authority

---

---

---

---

---

---

---

---

### Risk factor

A characteristic at the biological, psychological, family, community, or cultural level that precedes and is associated with a higher likelihood of problem outcomes

21

Washington State Health Care Authority

---

---

---

---

---

---

---

---

## Risk factors

- Are predictors of problem behaviors
- Risk Factors exist in four domains:
  1. Community
  2. Family
  3. School
  4. Peer/Individual
- For example: Risk Factors are predictive of higher levels of adolescent substance abuse, delinquency, teen pregnancy, school drop-out, violence, and depression and anxiety.

---

---

---

---

---

---

---

---

---

---

### Risk Factors for Health & Behavior Problems

Risk Factors for Health & Behavior Problems	Substance Abuse	Delinquency	Teen Pregnancy	School Dropout	Violence	Depression & Anxiety
<b>Community</b>						
Availability of Drugs	*					*
Availability of Firearms		*				*
Community Laws and Norms Favorable Toward Drug Use, Firearms, and Crime	*	*				*
Media Portrayals of the Behavior	*					*
Transitions and Mobility	*	*		*		*
Low Neighborhood Attachment and Community Disorganization	*	*		*		*
Extreme Economic Disorganization	*	*	*	*	*	*
<b>Family</b>						
Family History of the Problem Behavior	*	*	*	*	*	*
Family Management Problems	*	*	*	*	*	*
Family Conflict	*	*	*	*	*	*
Favorable Parental Attitudes and Involvement in the Problem Behavior	*	*		*	*	*
<b>School</b>						
Academic Failure Beginning in Late Elementary School	*	*	*	*	*	*
Lack of Commitment to School	*	*	*	*	*	*
<b>Individual/Peer</b>						
Early and Persistent Antisocial Behavior	*	*	*	*	*	*
Rebelliousness	*	*	*	*	*	*
Gang Involvement	*	*	*	*	*	*
Friends Who Engage in the Problem Behavior	*	*	*	*	*	*
Favorable Attitudes Toward the Problem Behavior	*	*	*	*	*	*
Early Initiation of the Problem Behavior	*	*	*	*	*	*
Constitutional Factors	*	*	*	*	*	*

---

---

---

---

---

---

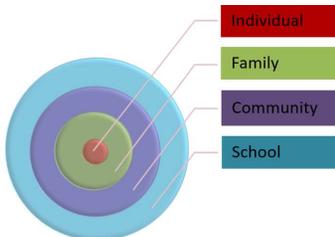

---

---

---

---

## Multiple contexts

---

---

---

---

---

---

---

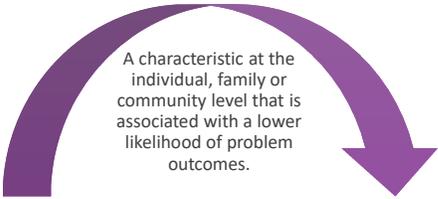

---

---

---

### Protective factor

---

A characteristic at the individual, family or community level that is associated with a lower likelihood of problem outcomes.

Washington State Health Care Authority

---

---

---

---

---

---

---

---

### Risk and protective factors

---

**Research has shown:**

- Common risk factors predict diverse behavior problems.
- Risk and protective factors work similarly across racial lines.
- Both risk and protective factors should be used in prevention efforts.

Washington State Health Care Authority

---

---

---

---

---

---

---

---

### Building Protection: Social Development Strategy

---

---

---

---

---

---

---

---

---

---

---

---

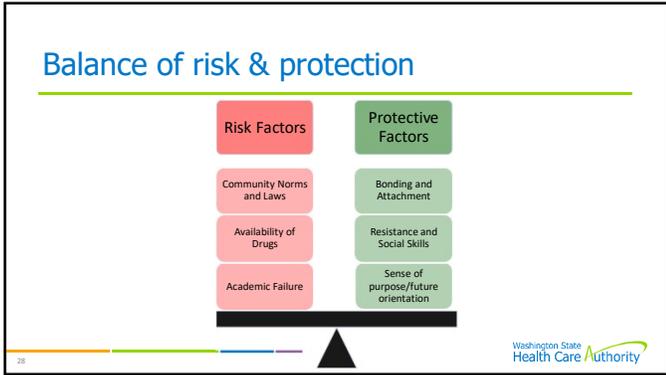

---

---

---

---

---

---

---

---

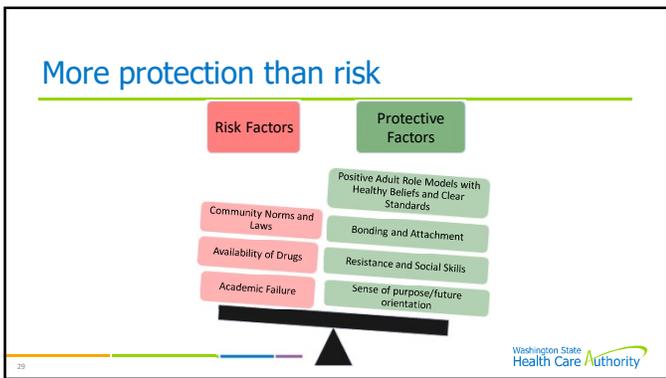

---

---

---

---

---

---

---

---

---

---

---

---

### Contributing factors

---

---

---

---

---

---

---

---

### Why does this matter?

10% less memory in the alcohol dependent youth compared to the healthy youth.

Source: Brown et al., 2009

These brain images show the impact of alcohol on the brain and specifically illustrating memory function.

---

---

---

---

---

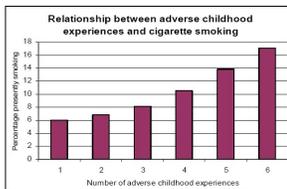

---

---

---

### Why does this matter?

Adverse Childhood Experience (ACES) & connection to substance misuse and abuse

---

---

---

---

---

---

---

---

### Process evaluation

What is one new thing you learned?	What is one thing you would like to learn more about?
------------------------------------	---

Washington State Health Care Authority

---

---

---

---

---

---

---

---

### Coordinator application: Discussion

- Why is it important to discuss the science of prevention with your new coalition, or with new coalition members?
- Provide an example of how you may do this at an upcoming coalition meeting.

Washington State Health Care Authority

---

---

---

---

---

---

---

---

### Introduction to the Community Prevention & Wellness Initiative (CPWI)

Goals of CPWI

Washington State Health Care Authority

---

---

---

---

---

---

---

---

## What is CPWI?

- DBHR launched the Prevention Redesign Initiative (PRI), later named CPWI, in 2011.
- The main goal of CPWI is to achieve positive outcomes on preventing and reducing youth substance use and abuse.
- It is a community and school-based model focused on:
  - Building healthy and safe community environments.
  - Expanding quality prevention services in community and school settings.
  - Empowering people to make healthy choices.
  - Eliminating health disparities.

---

---

---

---

---

---

---

---

## CPWI purpose

- Community Prevention and Wellness Initiative
  - Partnership of state agencies, counties, schools, and prevention coalitions
  - Empower communities to make sustainable changes
  - Focus on high needs communities and priority populations
  - Ensure effective prevention services
  - Provide funding, training, and technical assistance
  - Better target and leverage limited public resources

---

---

---

---

---

---

---

---

## Because of this, CPWI will...

- Have a deeper impact;
- Better measure those impacts; and
- Build support for additional investments in prevention.

---

---

---

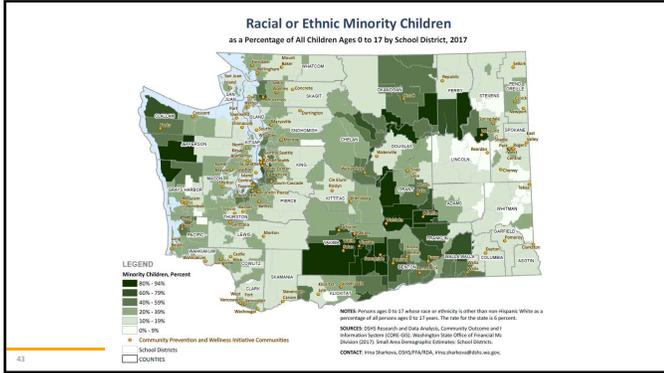

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

### A CPWI community will...

- Designate a community coordinator.
- Implement proven strategies through a prevention coalition.
- Use evidence-based capacity building.
- Implement environmental and targeted direct services, programs and policies.
- Receive technical assistance from DBHR.
- Partner with school-based Student Assistance Professional who implements prevention/intervention services.
- Evaluate chosen programs, policies and community-level change, and participate in statewide evaluation.
- Support state efforts to reduce youth access to tobacco and comply with federal Synar regulations.

Washington State Health Care Authority

---

---

---

---

---

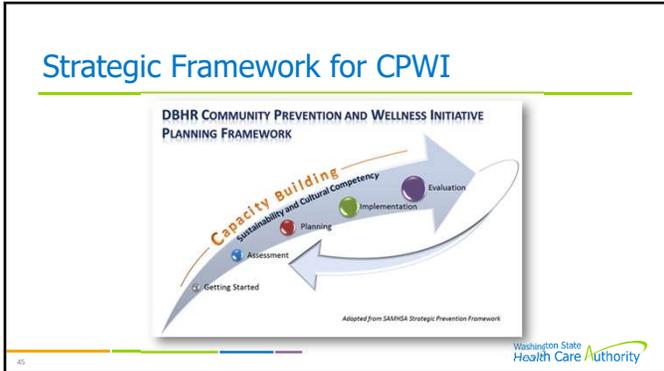

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

## Overview of CPWI model

- Getting started - Initiate the process in your community.
- Capacity Building - Developing and increasing coalition and community ability to address the problem locally.
- Assessment - Begin the Strategic Prevention Framework process.
- Planning - Create a plan for implementing and evaluating tested, effective programs, policies and practices.
- Implementation - Implement the plan.
- Evaluation and Reporting - Evaluate the plan, and refine as needed.

---

---

---

---

---

---

---

---

## The CPWI model

- CPWI works collaboratively with other state agencies, counties, communities, and schools.
- Service implementation incorporates:
  - ▶ evidence-based programming
  - ▶ environmental strategies
  - ▶ public awareness/social media campaigns
  - ▶ school-based Prevention/Intervention (P/I) Specialist placement into the community school(s)

---

---

---

---

---

---

---

---

## What CPWI communities do

- Facilitate local decision making.
- Implement proven strategies through a prevention coalition.
- Use evidence-based capacity building.
- Implement community-wide and targeted direct services, programs and policies.
- Partner with school-based prevention/intervention specialists.
- Evaluate chosen programs, policies and community-level change, and participate in statewide evaluation.

---

---

---

---

---

---

---

---

### Cultural competency

Equality      Equity

*"Cultural competency is not the tenth thing on the list in getting things done; it's the way we manage the other nine."*  
-Dr. Robert Hayles

Washington State Health Care Authority

---

---

---

---

---

---

---

---

---

---

### Cultural competency in the CPWI model

- Getting Started
- Assessment
- Planning
- Implementation
- Evaluation

Washington State Health Care Authority

---

---

---

---

---

---

---

---

---

---

### Coordinator application: Cultural competency

- What are health disparities?
- How do we achieve health equity?

Washington State Health Care Authority

---

---

---

---

---

---

---

---

---

---

## Getting Started

Purpose: Initiate the CPWI process in your community.

---

---

---

---

---

---

---

---

## CPWI Guide

- Chapter 1: General Info
- Chapter 2: Key Objectives
- Chapter 3: Implementing CPWI in your community

---

---

---

---

---

---

---

---

## Getting started

**CPWI tasks**

- ✓ Register and participate in The Athena Forum
- ✓ Select CPWI community
  - ▶ Issue media release (p. 59)
- ✓ Community Coalition Coordinator (.5 FTE minimum) for each CPWI community (80 hours per month)
  - ▶ Review job description with DBHR
  - ▶ Ensure Coordinator is working in the location of the coalition
- ☐ Confirm SAPISP and SAP (Student Assistance Professional) services

---

---

---

---

---

---

---

---

## Capacity building

Guide p. 24-26

### Mobilizing your coalition and community

**Purpose:** Developing and increasing coalition and community ability to address the problem locally.

- Build effective coalition.
- Establish your working coalition structure.
- Increase involvement from members.
- Increase involvement from community members in strategies and activities.

55

---

---

---

---

---

---

---

---

---

---

## Capacity building

Guide p. 24-26

### CPWI tasks:

- Recruit and retain membership
  - ▶ 8 of 12 sectors
  - ▶ Develop Membership section in Strategic Plan
  - ▶ Conduct 'Coalition Assessment Tool' (CAT)
  - ▶ Complete 'Community Profile' (p. 59)
- Sector representation at monthly meetings (8 sectors for at least 9 months)
- Provide community coalition orientation
- Establish and maintain coalition structure
- Engage key leaders in coalition's CPWI efforts. E.g., Key Leader Event
- Gather community information and feedback
- Participate in training and technical assistance

56

---

---

---

---

---

---

---

---

---

---

## Building an effective coalition

- Goal: Understanding keys to effective community coalition and roles of members and key leaders.
- Objectives:
  - ▶ Define a coalition and roles.
  - ▶ Identify ways to involve community members, youth, key political, social, and cultural leaders from the community to recruit for involvement and support of the CPWI effort.

57

---

---

---

---

---

---

---

---

---

---

### What is a coalition?

Guide p. 6

A formal arrangement for cooperation and collaboration

Sectors

Members represent and function on behalf of sectors

Members act within their own sphere of influence

New members are invited to participate

Washington State Health Care Authority

58

---

---

---

---

---

---

---

---

### High-performing coalitions have...

- Shared mission and vision
- Key values
- Strong bonds
- Effective structure
- Engaged members/partners
- Written roles of members and partners
- Operating principles (by-laws)
- Decision making process

Washington State Health Care Authority

59

---

---

---

---

---

---

---

---

### Identify roles

Core Members

Active Members

Key Leaders and Partners

Washington State Health Care Authority

60

---

---

---

---

---

---

---

---

## Coalition membership

- Effective recruitment takes place
- Members are active and engaged
- Diversity of coalition represents diversity of community
- Clearly defined roles and responsibilities, including:
  - ▶ Chair/Facilitator
  - ▶ Vice Chair
  - ▶ Recorder/Secretary
  - ▶ Coordinator/Staff
  - ▶ Coalition member
- [www.TheAthenaForum.org/training/cpwi\\_trainings](http://www.TheAthenaForum.org/training/cpwi_trainings)

61

---

---

---

---

---

---

---

---

---

---

## Role of coordinator

- Provide staff support.  
*(Note: Staff are not members of the coalition.)*
- Coordinate meeting preparation and follow up.
- Coordinate training and technical assistance.
- Coordinate implementation of strategies.
- Document CPWI efforts.
- Prepare reports as needed.
- Serve as a resource for the coalition.

62

---

---

---

---

---

---

---

---

---

---

## Roles and responsibilities

Guide p. 6-9

63

---

---

---

---

---

---

---

---

---

---

### Community coalition roles

- Members attend trainings.
- Facilitate the development of a community vision.
- Learn prevention science and SPF.
- Serve as community ambassadors and liaison between coalition and sector they represent.
- Coordinate work-group activities.
- Participate in decision-making processes.
- Develop community Strategic Plan including evaluation plan.

64

---

---

---

---

---

---

---

---

### Coalition leadership roles

- Supported by the Coordinator.
- Set an agenda.
- Provide oversight and accountability.
- Keep group focused and moving forward.

65

---

---

---

---

---

---

---

---

### Involving youth

- Youth coalition members serve vital roles and are a critical link to the community being served.
- A few of the responsibilities they often fulfill:
  - ▶ Outreach to other potential youth members.
  - ▶ Data collection/interpretation.
  - ▶ Public relations and social media.
  - ▶ Program planning and development.

66

---

---

---

---

---

---

---

---

### Coordinator application: Assessing membership

- Review the Assessing Membership Handout.
- Discuss with your groups how you might use this with your new coalition members.
- Are there other questions that you would want to add?
- Share out.

---

---

---

---

---

---

---

---

### Steps to successful participation

- Develop an organizational chart and emphasize with coalition membership
- Identify clear roles and responsibilities
- Create written "job descriptions"
- Get members to agree upon expectations regarding "active membership"
- Establish objective of each workgroup
- Create by-laws and decision making process

---

---

---

---

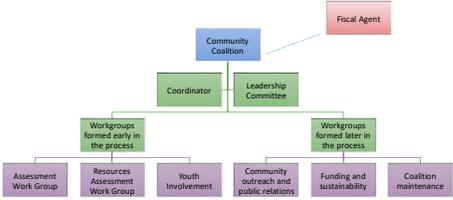

---

---

---

---

### Sample local organization

```

graph TD
    CA[Fiscal Agent] --- CC[Community Coalition]
    CC --- C[Coordinator]
    CC --- LC[Leadership Committee]
    C --- WE[Workgroups formed early in the process]
    C --- WL[Workgroups formed later in the process]
    WE --- AWG[Assessment Work Group]
    WE --- RAWG[Resources Assessment Work Group]
    WE --- YI[Youth Involvement]
    WL --- COTR[Community Outreach and public relations]
    WL --- FSS[Funding and sustainability]
    WL --- CM[Coalition maintenance]
  
```

---

---

---

---

---

---

---

---

## Cultural competency: Getting Started

Questions to consider for coalition involvement:

- What might a new member need from a group in order to feel involved and engaged as opposed to someone who has been involved for a while?
- What might someone from another culture or someone who is not familiar with group problem-solving and decision-making need from a group in order to feel involved and engaged as opposed to someone who is very familiar with those processes?

---

---

---

---

---

---

---

---

## Coordinator application: Key Leader Event

- How can you develop 'buy-in' for coalition by key leaders?
- How can (or will) you provide opportunities to hear perspectives of key leaders on the goals, activities, and coalition efforts?
- What was something you learned from your key leader event that you will or will not do next year?

---

---

---

---

---

---

---

---

## Training and Resources

---

---

---

---

---

---

---

---

---

---

---

**Training**

---

What else would help you?

What else would you like?

Washington State Health Care Authority

---

---

---

---

---

---

---

---

**Assessment**

Purpose: Develop and update the 'picture of your community'

Washington State Health Care Authority

---

---

---

---

---

---

---

---

**Assessment**

---

- Identify and review data that demonstrates the needs of the community.
- Identify people, community readiness and resources.
- Identify gaps of services for community needs.

Washington State Health Care Authority

---

---

---

---

---

---

---

---

## Assessment

Guide p. 27-28

Profiling your community's needs, resources, readiness, & gaps

### CPWI Tasks:

- ❑ Conduct Needs Assessment
  - ▶ Establish process for assessment
  - ▶ Conduct Assessment
  - ▶ Conduct 'Community Survey'
  - ▶ Prioritize outcomes and write into Strategic Plan
- ❑ Conduct Resources Assessment
  - ▶ Establish process for assessment
  - ▶ Conduct Assessment
  - ▶ Prioritize outcomes and write into Strategic Plan

82

---

---

---

---

---

---

---

---

## Assessment – workgroup support

- The coalition may choose to use a workgroup for this part of the needs assessment.
- It is recommended to have 3-5 people for the workgroup.
- Invite people in the community who have expertise and/or interest in data relating to youth risk and protective factors, substance use, and related community indicators of problem behaviors to join workgroups.

83

---

---

---

---

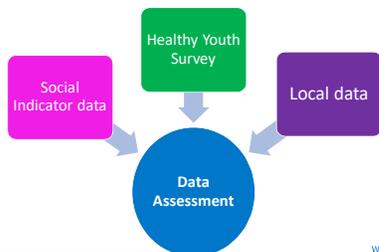

---

---

---

---

## Sources of data

84

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

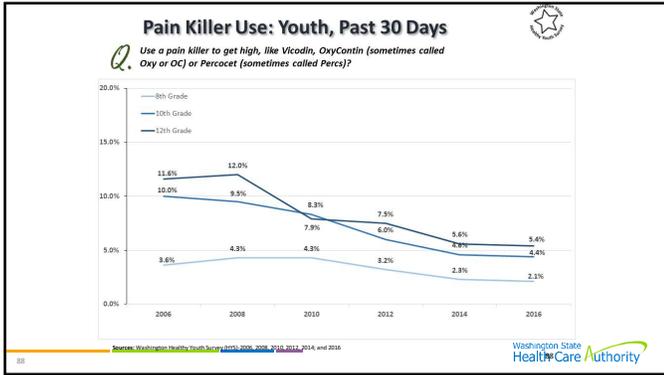

---

---

---

---

---

---

---

---

---

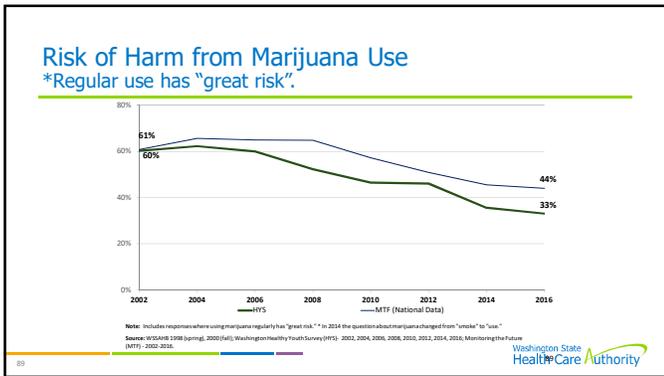

---

---

---

---

---

---

---

---

---

---

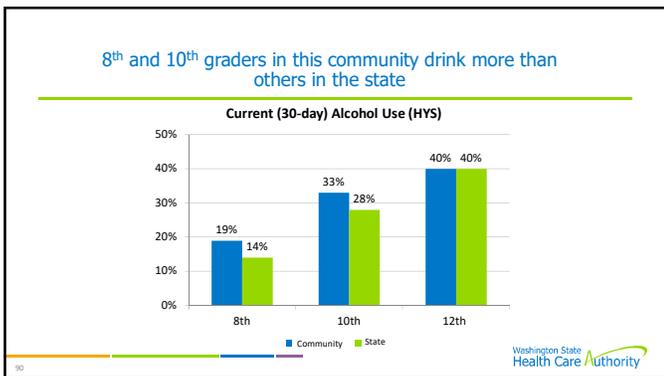

---

### Annual community survey

- Completed annually, from mid-August to mid-December
- Purpose:
  - ▶ Assessment – where are we at?
    - Contribute to the development of coalition strategic plans
  - ▶ Monitoring & trends – what has changed?
    - Evaluation
    - Contribute to biennial strategic plan updates
    - Early indicator of change
  - ▶ To develop a statewide convenience sample profile
    - Inform planning, campaigns, outreach

Washington State Health Care Authority

---

---

---

---

---

---

---

---

### Cultural competency: Assessment

Collecting a wide range of information for needs and resources assessments from:

● Coalition members	● Surveys
● Directories	● Ethnic workgroups
● City halls	● Faith-based program
● One-stop centers	● Human Capital
● Medical providers	● Cultural resources
● Key informants	

Washington State Health Care Authority

---

---

---

---

---

---

---

---

### Coordinator application: Discussion

- How can I assess what is currently going on in my community?
- How can I assess what is missing from my community?
- What is your plan for going through this process with your coalition?

Washington State Health Care Authority

---

---

---

---

---

---

---

---

**Planning**

**Purpose:** Create a plan for implementing and evaluating tested, effective programs, policies and practices.

97

---

---

---

---

---

---

---

---

**Planning**

- Selection of programs, policies and practices to fill needs and gaps.
- Create implementation plans with measurable objectives.
- Create evaluation plans with measurable outcomes.

98

---

---

---

---

---

---

---

---

**Planning**

Guide p. 29

**Develop a strategic prevention plan**

**CPWI Tasks:**

- Select goals, objectives, strategies, and programs/activities
  - ▶ Coalition determines goals and objectives
  - ▶ Coalition determines strategies, and programs/activities
- Develop Prevention Strategic Plan
- Confirm partnerships for implementation of strategies and programs/ activities

99

---

---

---

---

---

---

---

---

The frog or the pond?

Washington State Health Care Authority

---

---

---

---

---

---

---

---

Benefits of action plan

Key Elements:

- Broad community involvement & ownership.
- Data-driven assessment of risk, protection, behavior and resources.
- Mutually agreed-upon focus and priorities.
- Research-based programs, policies and practices, building on existing resources.
- Outcome-based plan and evaluation strategy.

Washington State Health Care Authority

---

---

---

---

---

---

---

---

Comprehensive approach

CSAP Categories

- Alternative (Community Based Mentoring/Summer Youth Programs)
- Community-Based Process (Community Coalition)
- Education (Life Skills, Guiding Good Choices)
- Environmental (Policy Change)
- Information Dissemination (Public Awareness)
- Problem ID and Referral (Project Success & the Student Assistance Professional)
- Other (only used for training & conferences) (includes program training)

---

## Goal development

- A statement that explains what the community wishes to accomplish or change in an intervening variable. (2-5 years to achieve)

---

---

---

---

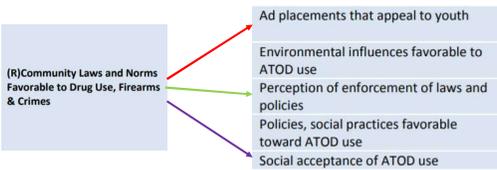

---

---

---

---

## Selecting objectives

---

---

---

---

---

---

---

---

## Building objectives

- Objective should address the local condition (based on risk/protective factor).
- Break down goal into smaller parts.
- Provide specific, measurable actions in which the goal can be achieved.
- What can the coalition achieve that will impact overall goal?

---

---

---

---

---

---

---

---

## Building objectives

---

**Good objectives are SMART**

**S**pecific - "What is to be done?" "How will you know it is done?" and describes the results (end product) of the work to be done.

**M**easurable - Defines the objective using assessable terms (quantity, quality, frequency, costs, deadlines, etc). *Excellent* objectives describe the change from a baseline condition to a preferred condition.

**A**chievable - "Can the person do it?" "Can the measurable objective be achieved by the person?"  
"Does he/she have the experience, knowledge or capability of fulfilling the expectation?"

**R**elevant - "Should it be done?", "Why?" and "What will be the impact?"

**T**ime-oriented - "When will it be done?"

106

---

---

---

---

---

---

---

---

---

---

## Review objectives

---

Goal 2: *Decrease Community Levels and Norms Favorable to Drug Use* (Minerva #11)

Objective 2.1: *Decrease social acceptance of ATOD use by 10% as measured by the Community Survey between 2019 and 2022* (Minerva #12, #13)

CSAP Strategy: *Information Dissemination* Minerva #15

Name of Program	Funding Source	Brief Description	How	Who & IOM Category	Lead and Responsible Party(ies)	Survey

Answer the following questions (Is this objective SMART?)

- A change in what?
- As measured by?
- Baseline or starting point?
- How much to change?
- By when?

107

---

---

---

---

---

---

---

---

---

---

## Strategy selection

---

Strategies that...

- ...address your prioritized risk and protective factors.
- ...will allow you to go "upstream" to make an impact.
  - ▶ Individuals with problems now need intervention and/or treatment. If you're seeing a problem in your 8th grade data, you go back two years to provide services to 6th graders. By the time they're 8th graders hopefully their view of substance abuse is different.
- ...appropriate for your community.  
Examples include: cultural and language considerations, literacy and education considerations.

108

---

---

---

---

---

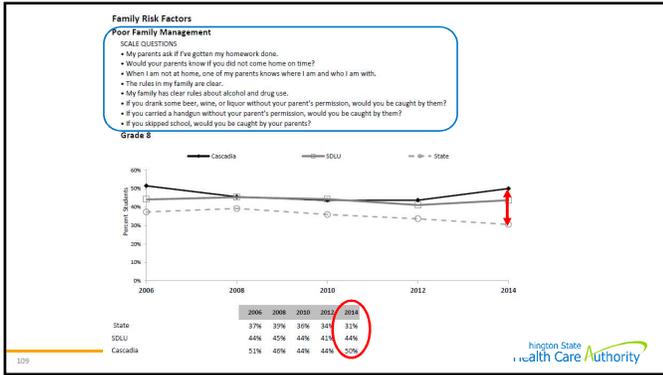

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

**Risk/Protective Factors, Local Condition, SMART Objectives**

Risk and/or Protective Factors	Local Condition	SMART Objective
Community laws and norms favorable to drug use	Social acceptance of ATOD	Decrease social acceptance of ATOD use by 10% as measured by the Community Survey between 2019 and 2022.
Family management problems	Knowledge and skills to facilitate family communication	Increase knowledge and skills to facilitate family communication by 15% for each cycle of parenting workshops offered in 2019-20, as measured by Managing and Monitoring for Parents survey.
Availability of Drugs	Youth access to ATOD	Decrease youth access to alcohol, from 8% to 5%, as measured by the number of youth that report they obtain alcohol from a store, from a 2018 HYS baseline to the 2020 HYS.

110

---

---

---

---

---

---

## When looking at programs

- Does strategy address priority risk/protective factors?
- Do the outcomes match the coalition vision?
- Is the cost reasonable?
- Are there folks in the community to implement the program?
- Have those potential staff been notified? Have they agreed?
- Is the time frame doable?
- Who are the people/organizations who support this programs implementation? Any oppose?

## Example: Guiding Good Choices on EIP List

### 1. Overview and description

Guiding Good Choices (GGC) is a drug use prevention program that provides parents of children in grades 4 through 8 (9 to 14 years old) with the knowledge and skills needed to guide their children through early adolescence. It seeks to strengthen and clarify family expectations for behavior, enhance the conditions that promote bonding within the family, and teach skills that allow children to resist drug use successfully. GGC is based on research that shows that consistent, positive parental involvement is important to helping children resist substance use and other antisocial behaviors. Formerly known as Preparing for the Drug Free Years, this program was revised in 2003 with more family activities and exercises. The current intervention is a five-session curriculum that addresses preventing substance abuse in the family, setting clear family expectations regarding drugs and alcohol, avoiding trouble, managing family conflict, and strengthening family bonds. Sessions are interactive and skill based, with opportunities for parents to practice new skills and receive feedback, and use video-based vignettes to demonstrate parenting skills. Families also receive a Family Guide containing family activities, discussion topics, skill-building exercises, and information on positive parenting.

## Strengthening Families Program: For Parents and Youth 10-14 (Iowa Version)

### 1. Overview and description

The Strengthening Families Program: For Parents and Youth 10-14 (SFP 10-14) is a family skills training intervention designed to enhance school success and reduce youth substance use and aggression among 10- to 14-year-olds. It is theoretically based on several etiological and intervention models including the bio-psychosocial vulnerability, resiliency, and family process models. The program includes seven 2-hour sessions and four optional booster sessions in which parents and youth meet separately for instruction during the first hour and together for family activities during the second hour. The sessions provide instruction for parents on understanding the risk factors for substance use, enhancing parent-child bonding, monitoring compliance with parental guidelines and imposing appropriate consequences, managing anger and family conflict, and fostering positive child involvement in family tasks. Children receive instruction on resisting peer influences to use substances. Sessions, which are typically held once a week, can be taught effectively by a wide variety of staff.

---

---

---

---

---

---

---

---

---

### Coordinator application: discussion

- How will you ensure that your entire Coalition is involved in making decisions on the Action Plan?
- What are some of the challenges you foresee in preparing your Action Plan?
- How will you overcome those challenges?

Washington State Health Care Authority

---

---

---

---

---

---

---

---

### Implementation

Purpose: Implement the plan

Washington State Health Care Authority

---

---

---

---

---

---

---

---

### Implementation cycle

```
graph TD; A[Action Plan] --> B[Mobilize Support]; B --> C[Carry out intervention]; C --> D[Monitor, evaluate and adjust]; D --> E[Evaluate process and outcomes]; E --> A;
```

Washington State Health Care Authority

---

---

---

---

---

---

---

---

**Implementation**

---

- Service implementation incorporates:
  - ▶ evidence-based programming
  - ▶ direct-services
  - ▶ environmental strategies
  - ▶ public awareness/social media campaigns
  - ▶ school-based prevention and intervention services into the community's school(s)

Washington State Health Care Authority

---

---

---

---

---

---

---

---

**Implementation** Guide p. 30-31

---

**Implement evidence-based prevention strategies**

**CPWI Tasks:**

- Maintain active community coalition
  - ▶ Coordinator supports coalition
  - ▶ Monthly full coalition meetings
  - ▶ Review and revised coalition structure as needed
  - ▶ Complete tasks in Community Coalition Guide
- Participate in meetings with DBHR
  - ▶ Learning community meetings (Bi-monthly)
  - ▶ Check-in meetings (Monthly)
  - ▶ Attend the Washington Prevention Provider Meeting (Annually)
  - ▶ Attend the Summer Institute (Annually)

Washington State Health Care Authority

---

---

---

---

---

---

---

---

**Implementation** Guide p. 30-31

---

**Implement evidence-based prevention strategies**

**CPWI Tasks:** *(continued)*

- Implement statewide media campaigns
- Implement strategies and programs/activities according to Strategic Plan
  - ▶ Organize and implement P-I services
  - ▶ Capacity building strategies & activities
  - ▶ Cultural competency strategies & activities
  - ▶ Sustainability strategies & activities
  - ▶ Public awareness campaign(s)
  - ▶ Environmental strategy(ies)
  - ▶ Direct prevention strategy(ies)

Washington State Health Care Authority

---

---

---

---

---

---

---

---

### Implementing with fidelity

- Adhering to components of a program and the procedures for implementing.
- Components of the program include:
  - Number of sessions.
  - Min and max of participants.
  - Duration of the time spend with participants.

Washington State Health Care Authority

---

---

---

---

---

---

---

---

### Cultural competency: Implementation

- Target population/reach
- Language and communication accommodations
- CLAS standards
- Cultural relevancy
- Meal preparation and cultural and dietary considerations
- Recruitment of focused population

Washington State Health Care Authority

---

---

---

---

---

---

---

---

### Coordinator application: Implementation

- Get into groups of 3 – 4.
- Pick a program from the EIP List.
- Discuss
  - What things need to be in place in order for the program to be successful?
  - How will you recruit participants?
  - How will you ensure that you will obtain proper reporting elements?

Washington State Health Care Authority

---

---

---

---

---

---

---

---

**Evaluation**

Purpose: Evaluate the plan, and refine as needed

---

---

---

---

---

---

---

---

---

---

**Evaluation**

---

- Evaluate the process and outcomes
- Review and adjust the plan and implementation as needed
- Coalition uses evaluation plan to monitor success

---

---

---

---

---

---

---

---

---

**Evaluation & reporting**

Guide p. 32-33

---

**Evaluate and monitor results, change as necessary**

**Purpose:** Evaluate the plan, and refine as needed

- Evaluate the process and outcomes
- Review and adjust the plan and implementation as needed
- Coalition uses evaluation plan to monitor success

---

---

---

---

---

---

---

---

---

**Evaluation & reporting** Guide p. 32-33

---

**Evaluate and monitor results, change as necessary**

**CPWI Tasks:**

- Develop reporting and evaluation strategies
  - ▶ Determine coalition's intended major outcomes & impacts
  - ▶ Determine how evaluation information will be shared
- Complete reporting in the MIS "Minerva"
  - ▶ Coalition & community organization functioning
  - ▶ 'Coalition Assessment Tool' (survey)
  - ▶ Report public awareness & environmental strategy(s)
  - ▶ Report direct prevention strategy(s)

Washington State  
Health Care Authority

---

---

---

---

---

---

---

---

---

---

**Evaluation & reporting** Guide p. 32-33

---

**Evaluate and monitor results, change as necessary**

**CPWI Tasks:** *(continued)*

- Review and analyze output and outcome information with coalition according to Strategic Plan.
  - ▶ Use the 'Coalition Assessment Tool' report to evaluate coalition capacity building efforts.
  - ▶ Review effectiveness of message dissemination
  - ▶ Will use the Minerva reports, state data, & other local reports to monitor & evaluate progress
- Participate in statewide evaluation
  - ▶ Ensure participation in the Healthy Youth Survey
  - ▶ Annual 'Coalition Assessment Tool' (survey)
  - ▶ Response rates for the 'Community Survey'

Washington State  
Health Care Authority

---

---

---

---

---

---

---

---

---

---

**Cultural competency: Evaluation**

- Is the design appropriate to the evaluation questions as well as the cultural context and values of the community?
- Do surveys reflect the sensitivity and needs of community members?
- Are diverse community members able to understand and respond to surveys?

Washington State  
Health Care Authority

# Sustainability

What is it, and how do you get there?

333

---

---

---

---

---

---

---

---

## What is sustainability?

---

What are  
you  
sustaining?

What do  
you need to  
sustain it?

How will  
you get it?

334

---

---

---

---

---

---

---

---

## Sustainability

---

**Question 1: What are you sustaining?**

- Direct Services
- Partnerships
- Coalition

- Overall, you are striving to maintain **outcomes**

?

335

---

---

---

---

---

---

---

---

**Sustainability**

---

**Question 2: What do you need to sustain it?**

- Policies
- Resources
- People
- Funding
- Outcomes

Washington State Health Care Authority

---

---

---

---

---

---

---

---

**Sustainability**

---

**Question 3: How will you get it?**

- Partnerships
- Policy Changes
- Securing other funding

Washington State Health Care Authority

---

---

---

---

---

---

---

---

**Process evaluation**

---

<p>What is one new thing you learned?</p>	<p>What is one thing you would like to learn more about?</p>

---

---

---

---

# Strategic Planning

How is it done?

139

---

---

---

---

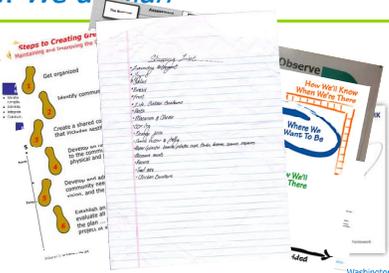

---

---

---

---

## Side note: *We all plan*

140

---

---

---

---

---

---

---

---

## What is a Strategic Plan?

- The process, findings, decisions, and plans for the future.
- Creates, confirms and provides documentation of the intended vision and goals of a coalition.
- Sets the course for the work of the coalition with a long-term focus while also maintaining the immediate work that needs to be completed.
- 'Living documents' that provide direction but also are updated regularly to account for assessment and evaluation information and related changes.

141

---

---

---

---

---

---

---

---

## What is a Strategic Plan?

Each section of the Plan should present a clear picture of:

- The coalition's process for completing the step.
- The results of the work.
- The plan for the future based on the results of the work.
- Each section should be developed based on the information presented in the previous section and provide a logical link to the next section.

142

---

---

---

---

---

---

---

---

## Strategic Planning

- Where are we going?
  - ▶ Agree on goals and strategies that address locally relevant substance abuse.
  - ▶ Demonstrate each partner's role in supporting those goals and strategies.
  - ▶ Plan collaborative projects that support goals and objectives.

143

---

---

---

---

---

---

---

---

## Roles in Strategic Planning

### Coalitions -

- Engage in the planning process by:
  - ▶ Participating in workgroups to review data;
  - ▶ Review drafts of the plan; and
  - ▶ Develop strategies.
- Make decisions regarding:
  - ▶ Functioning of the coalition;
  - ▶ Priority problems based on assessment;
  - ▶ Goals and objectives, strategies and activities; and
  - ▶ Evaluation measures and reporting.

### Coordinators -

- Manage the strategic planning and implementation processes.
- The job of the coordinator is to:
  - ▶ Understand the framework, process, and requirements;
  - ▶ Keep track of the overall process in order to guide the coalition through the process and ensure the coalition is moving forward; and
  - ▶ Keep records of the work and decisions of the coalition.

144

---

---

---

---

---

---

---

---

## Strategic Plan Guidance

---

- Executive Summary
- Organizational Development (Getting Started)
- Capacity Building
- Assessment
- Needs Assessment
- Resources Assessment
- Plan
- Implementation
- Reporting and Evaluation

Remember to address and include Sustainability, Cultural Competency and Capacity in each step

---

---

---

---

---

---

---

---

---

---

## CPWI Planning Framework

---

DBHR Community Prevention & Wellness Initiative Planning Framework

Adapted from SAMHSA Strategic Prevention Framework

---

---

---

---

---

---

---

---

---

---

### (Name) Coalition Logic Model

Long-Term Consequences	Behavioral Health Problems (Community)	Intervening Variables (Risk/Protective Factors)	Local Coalitions and Contributing Factors	Strategies & Local Implementation	Evaluation Plan
