

# MARIJUANA OKAY FOR YOUR PET? THE ANSWER IS NO!

## Pets can be exposed to marijuana in many ways

Accidental exposure by finding and eating it.

Second hand smoke

Eating food based products/edibles with marijuana as an ingredient

## Exposing animals to marijuana does not have the same effect as with humans

**In fact, it could make them very ill**     **Animal Marijuana overdoses can cause:**

- Anxiety agitation and panting
- Excessive thirst, drooling and vomiting
- Diarrhea and loss of bladder control
- Trembling and seizures
- Extreme response to noise and movement
- Unconsciousness, coma, and death
