

EXECUTIVE SUMMARY & INTRODUCTION

Who We Are

Monroe Community Coalition is a grassroots volunteer organization dedicated to improving the health and wellness of our community by reducing risk factors and enhancing protective factors associated with underage drinking and other substance use. We are a community collaboration working to implement alcohol and other drug prevention with a community-based approach.

Monroe has a history of successful collaboration in prevention initiatives including an effective and ongoing Student Assistance Prevention-Intervention Services Program.

The Coalition serves all of Monroe, but focuses our efforts on Frank Wagner Elementary School, Park Place and Hidden River Middle Schools, Monroe High School and Leaders in Learning Alternative School.
