Ball Pass/Group Juggle

Team Building Activity

Goals:

- To learn the names of other meeting attendees
- To have fun and be actively engaged
- To build a stronger sense of community
- To accomplish a shared goal

Summary:

Ball Pass/Group Juggle is intended to be used as an Icebreaker to help participants learn each others names (Name Game Activity). This quick and easy activity is a great method to use to introduce a group to one another and challenge them to work as a team. If desired, a time challenge can be added to the activity (Team Building/Problem Solving Activity) and will give participants an opportunity to work as a team.

Supplies:

- Tennis balls or other soft objects (Koosh balls, stuffed animals, etc.)

Community Prevention and Wellness Initiative – Local Community Coalitions

DBHR began implementing CPWI in 2011 by redirecting funding to better target and leverage limited prevention resources to higher-need communities. Our goal is to support proven strategies that will have a long-term, positive impact on families and others in their communities. CPWI is being implemented through active partnerships with counties, Educational Service Districts (ESDs), local school districts, and the Office of the Superintendent of Public Instruction. Get more information and see where CPWI communities are located in the CPWI brochure.

Othello, WA — People Against Illegal Drugs (PAID) +

The greater Othello community, population 5,847, lies in the heart of the Columbia Basin in eastern Washington state. The coalition People Against Illegal Drugs (PAID) was established in 1985 with a focus on the prevention of alcohol, tobacco, and other drug use through the promotion of positive choices for youth. Their mission is: "To organize a coalition of parents, students, educators, and other concerned community organizations and individuals, for the purpose of developing an awareness of the drug problem in Othello, and create a drug and alcohol free environment for our youth."

Reminder! Drug Enforcement Agency National Prescription Drug Take Back Day

Saturday October 22, 2016

The National Prescription Drug Take-Back Day aims to provide a safe, convenient, and responsible means of disposing of prescription drugs, while also educating the general public about the potential for abuse of medications.

It's a great time to clean out your medicine cabinet! Protect our kids, families and environment by properly disposing of your unwanted and expired medicines. Medicines in the home are a leading cause of accidental poisoning and flushed or trashed medicines can end up polluting our waters

---

Experts agree: Take-back programs are the first choice. Law enforcement, public health, and environmental professionals stand united in support of take-back programs, as the safest and most responsible way to dispose of unwanted and expired medicines

More DEA Take Back information:
https://www.deadiversion.usdoj.gov/pubdispsearch/spring/main?execution=e1s1

Washington State Information:
http://www.takebackyourmeds.org/
Take Back Your Meds is a group of over 270 organizations in Washington State who support creation of a statewide program for the safe return and disposal of unwanted medicines.
