

# CPWI Data Books / Community Survey

Custom Consultations  
and Solutions to  
Common Data Problems

May 13, 2021

# Workshop Outline

---

- ▶ Your Questions - Consultations with Solutions
  - ▶ Raise hand to speak / or type in Chat box
- ▶ Open Forum – Feedback on your data products / future training needs
  - ▶ Raise hand to speak / or type in Chat box
- ▶ Applying data analyses skills to interpret tables and charts included in the Data Book
- ▶ Explore ways to communicate your Data Book data

# Questions?

## What's Happening in Port Townsend?

A Community Needs Assessment Data Book

Jefferson County

## What's Happening in East Valley (Spokane)?

A Community Needs Assessment Data Book

Spokane County

April 2020

## 2020 Iniciativa de Prevención y Bienestar de la Comunidad Encuesta a la comunidad

Nos interesa sus opiniones sobre el consumo de sustancias por parte de los jóvenes en nuestra comunidad. Sus respuestas ayudarán a informar y mejorar los programas de prevención para nuestros jóvenes.

Esta encuesta de 10 a 15 minutos de duración es completamente anónima.

Puede omitir cualquier pregunta o detener la encuesta en cualquier momento.

Washington State  
Health Care Authority

HCA 82-0332 EP (7/20) Spanish

## 2020 Community Prevention and Wellness Initiative Community Survey

We are interested in your opinions about youth substance use in our community. Your responses will help inform and improve prevention programs for our youth.

This 10-15 minute survey is completely anonymous.

You may skip any questions or stop the survey at any time.

# Purpose of the Data Book

- ▶ Developed for CPWI to assist coalitions in strategic planning
- ▶ Provides data to start your community needs assessment

## What's Happening in Sample Community?

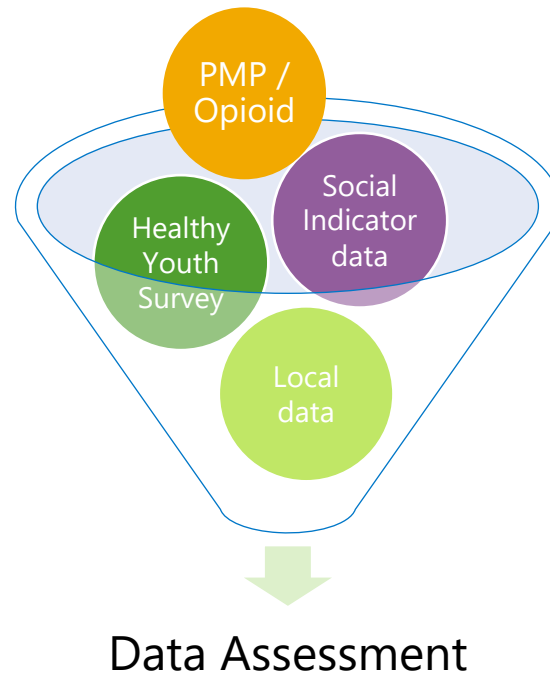

A Community Needs Assessment Data Book

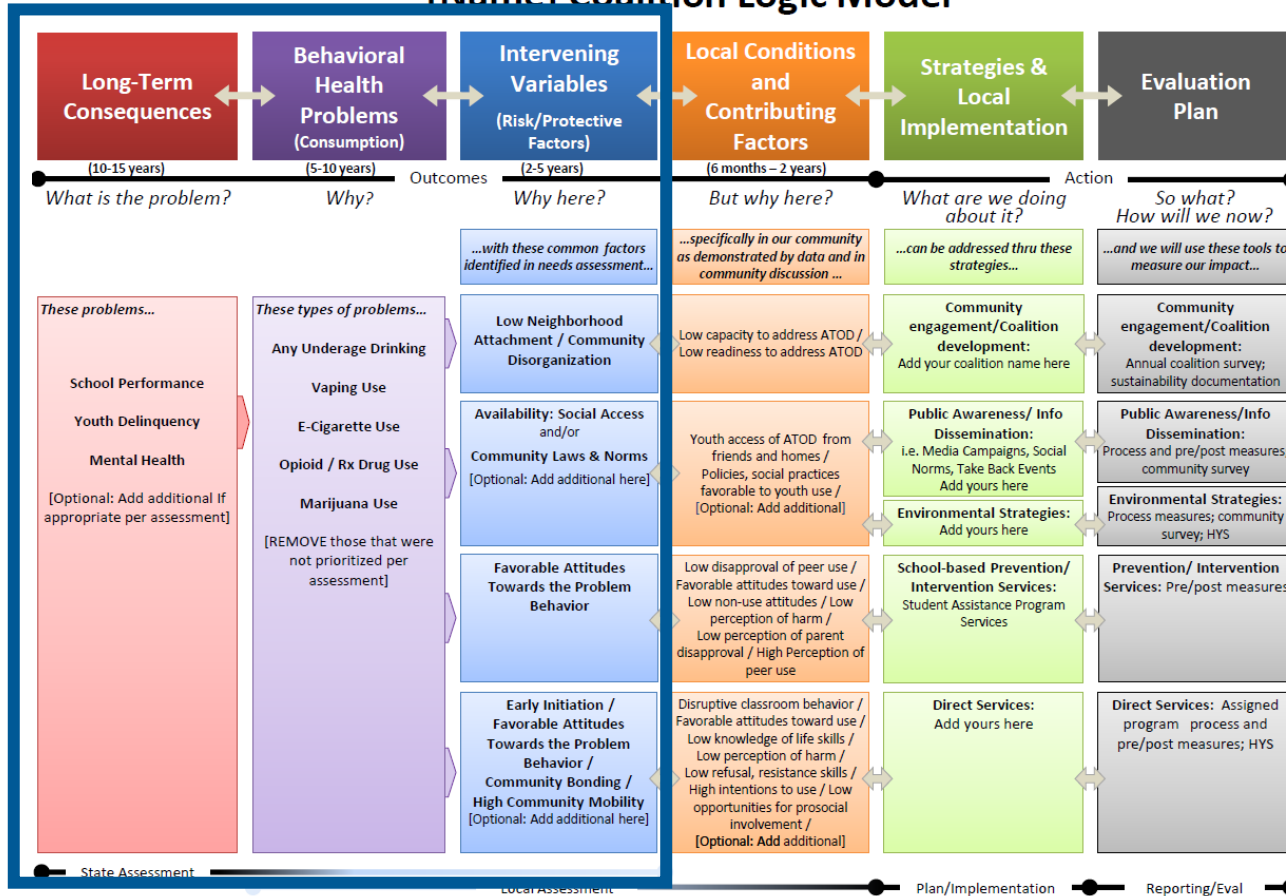

March 2020

# Sources of Data used in assessing communities

---

# [Name] Coalition Logic Model

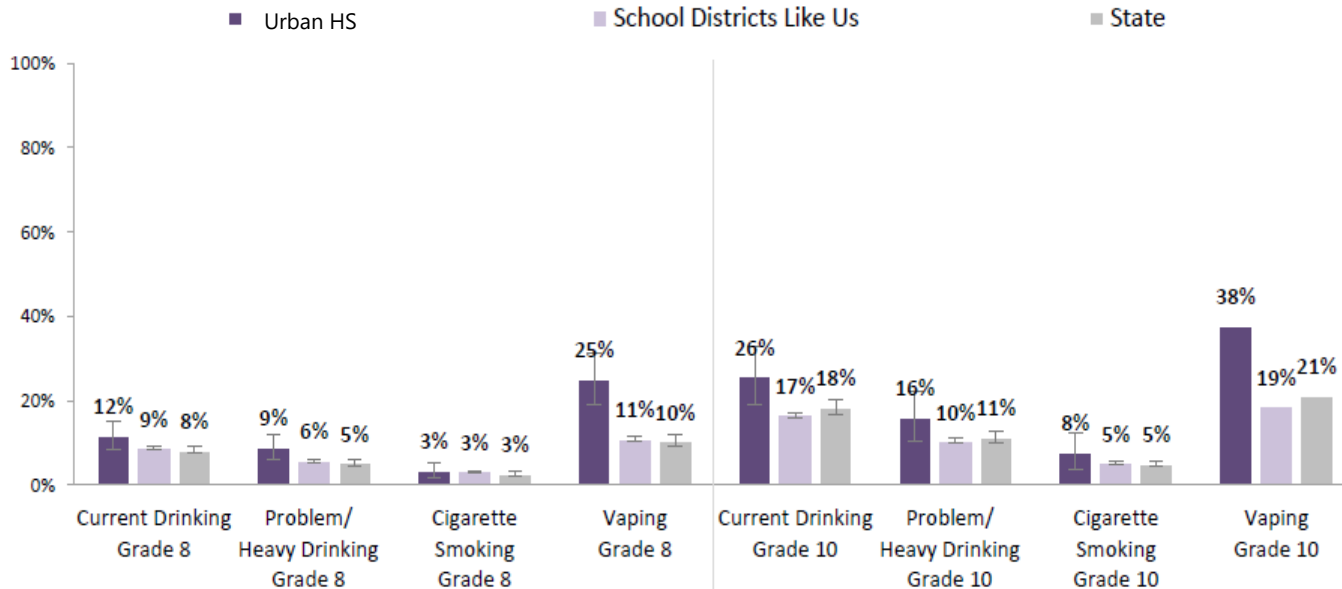

# Interpreting Tables and Charts

Identifying difference in the data

# Confidence Intervals / Error Bars

HYS Measures of Youth Substance Use (2018, Percent)

# What are Confidence Intervals and why do you need them?

---

- ▶ The confidence interval represents the variability of the estimate
- ▶ It's unlikely that 100% of your students participated in the survey
- ▶ The reported value is unlikely to be exactly the same as the "true" value for all your students.
- ▶ The confidence interval account for the random variation due to sampling
- ▶ The confidence intervals help you compare your results to others and over time

# What affects the size of a confidence interval?

---

The size of a confidence interval is affected by:

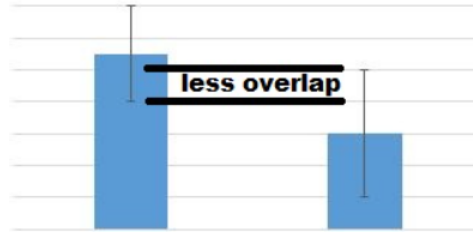

- ▶ Sample Size
  - ▶ In general, the larger the sample (i.e. students surveyed) the smaller the confidence interval
- ▶ Inherent Variability
  - ▶ If most students select the same response to a survey question, there is less variability. The more variable the answers, the wider the CIs
- ▶ Level of Confidence (All 95% for HYS)

# What do error bars indicate about statistical significance?

---

When standard deviation error bars overlap quite a bit, it's a clue that the difference is not statistically significant. You must actually perform a statistical test to draw a conclusion.

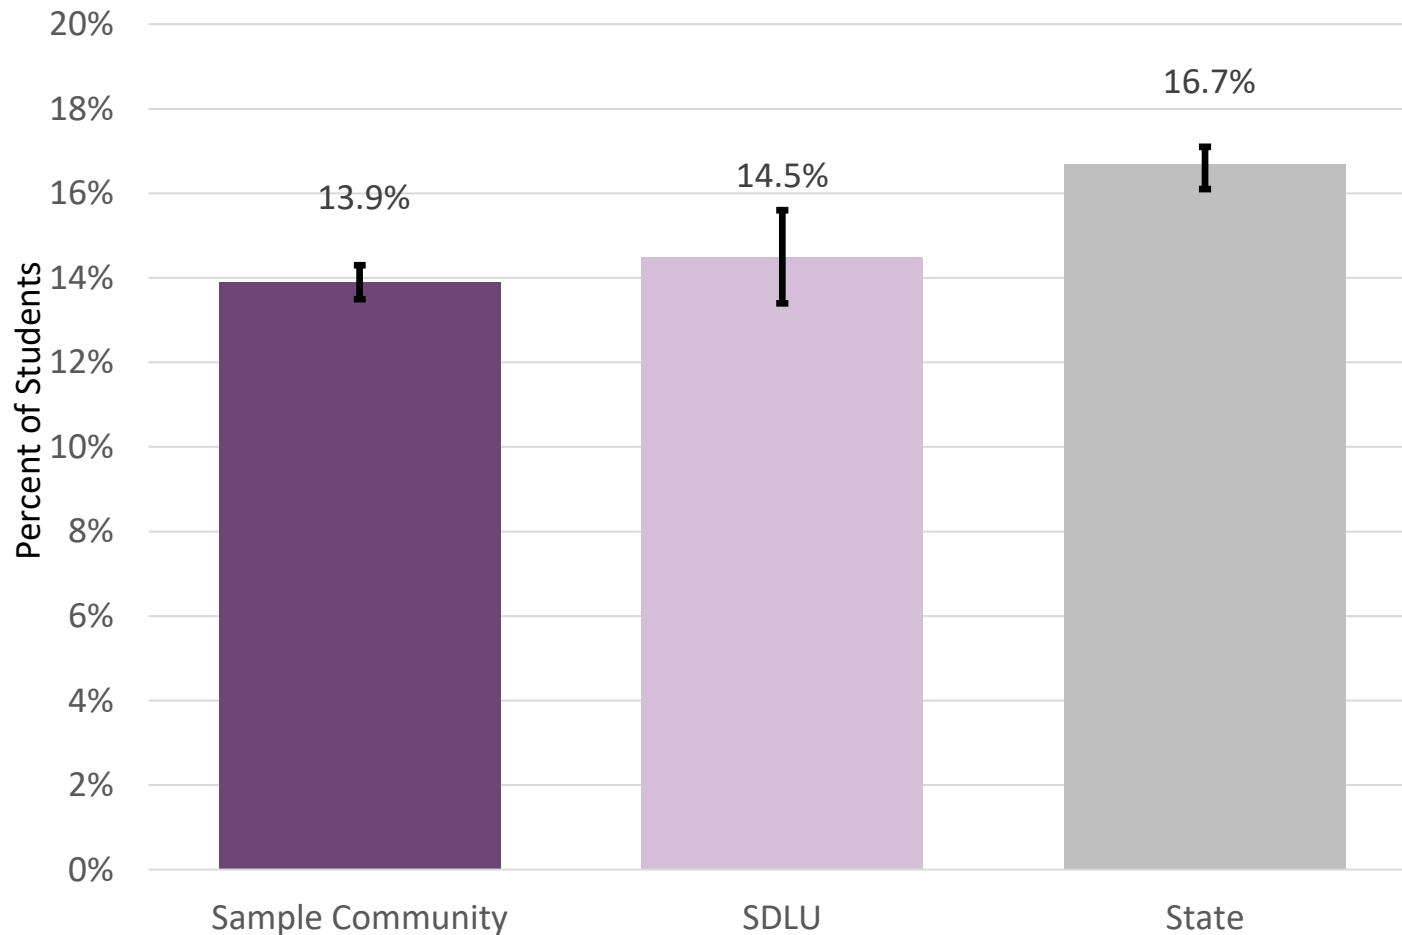

When standard deviation error bars overlap even less, it's a clue that the difference is probably not statistically significant. You must actually perform a statistical test to draw a conclusion.

When standard deviation error bars do not overlap, it's a clue that the difference may be significant, but you cannot be sure. You must actually perform a statistical test to draw a conclusion.

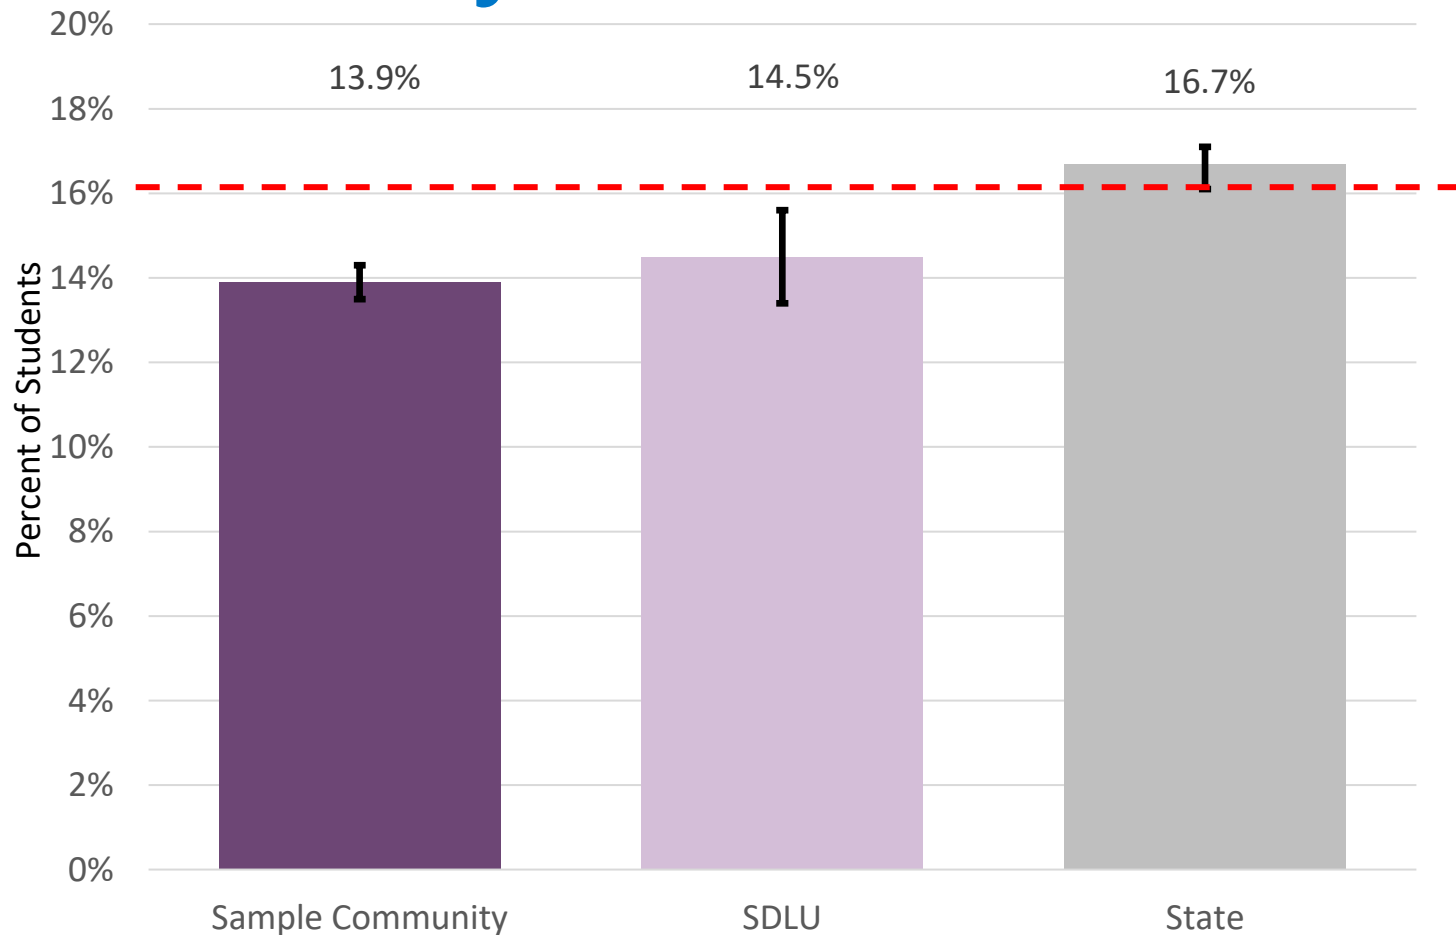

# Using CI to make conclusions about data

# Which community has the highest rate of marijuana use?

# Which community has the highest rate of marijuana use?

# Which community has the highest rate of marijuana use?

# Which community has the lowest rate of marijuana use?

# Which community has the highest rate of marijuana use?

# How do we talk about the results with the confidence intervals?

---

- Sample Community
- School Districts Like Us
- State

- ▶ In 2018, 17% of 10<sup>th</sup> grade students in our community reported using marijuana in the past 30 days.

# How do we talk about the results with the confidence intervals?

- Sample Community
- School Districts Like Us
- State

- ▶ In 2018, 17% of 10<sup>th</sup> grade students in our community reported using marijuana in the past 30 days.
- ▶ The percent of 10<sup>th</sup> grade students in our community reporting using marijuana in the past 30 days was about the same as the state average (17% vs. 18%, respectively).

# Communicating results

HYS Measures of Youth Substance Use	GRADE	Sample Community		School Districts Like Us		State	
		2016	2018	2016	2018	2016	2018
<b>Current E-cigarette/Vape Use:</b> During the past 30 days, on how many days did you use an electronic cigarette, also called e-cigs, or vape pens? <i>(Results: Use any days)</i>	8	8%	15% <sup>a</sup>	6%	11%	6%	10% <sup>c</sup>
	10	11%	12%	11%	19% <sup>b</sup>	13%	21% <sup>c</sup>

- ▶ In 2018, 15% of 8<sup>th</sup> graders reported e-cigarette use at least once in the past 30 days, a rate that has significantly increased since 2016.
- ▶ In 2018, approximately 1 out of 7 eighth grade students in our community reported e-cigarette use at least once in the past 30 days.

# Communicating results

HYS Measures of Youth Substance Use	GRADE	Sample Community		School Districts Like Us		State	
		2016	2018	2016	2018	2016	2018
<b>Current E-cigarette/Vape Use:</b> During the past 30 days, on how many days did you use an electronic cigarette, also called e-cigs, or vape pens? <i>(Results: Use any days)</i>	8	8%	15% <sup>a</sup>	6%	11%	6%	10% <sup>c</sup>
	10	11%	12%	11%	19% <sup>b</sup>	13%	21% <sup>c</sup>

- ▶ The percent of 10<sup>th</sup> grade students in our community reporting e-cigarette use in the past 30 days is lower than the state rate of 10<sup>th</sup> grade students reporting use. (12% vs. 21%, respectively).

# Communicating results

HYS Measures of Youth Substance Use	GRADE	Sample Community		School Districts Like Us		State	
		2016	2018	2016	2018	2016	2018
<b>Current E-cigarette/Vape Use:</b> During the past 30 days, on how many days did you use an electronic cigarette, also called e-cigs, or vape pens? <i>(Results: Use any days)</i>	8	8%	15% <sup>a</sup>	6%	11%	6%	10% <sup>c</sup>
	10	11%	12%	11%	19% <sup>b</sup>	13%	21% <sup>c</sup>

- ▶ Current E-cigarette use by 10<sup>th</sup> grade students in our community is significantly lower than in Washington.
- ▶ Current E-cigarette use by 10<sup>th</sup> grade students is less common in our community than in Washington.
