No	Agenda Items	Time	Lead	Summary Meeting Notes
1.	Welcome, introductions and Team Building	9:00	Kasey Kates WHY Co-Chair	Attendees introduced themselves and responded to the following question: Would you rather live on the moon or in the ocean?
2.	DCYF Update and Youth Engagement	9:15	Cole Ketcherside	Cole introduced the work of the DCYF adolescence team as those programs relate to alcohol and marijuana. Cole has been working on strategic efforts concerning the support of youth prior to addiction. Cole developed a report that recommended changes to the programs that DCYF was implementing to make the programs more functional. Co-design is being created with community based organizations. The program will attempt to support families in crisis or who are using substances that are detrimental to the

			<p>health of families and youth. Also being considered is how to work with the Juvenile court system. Members were given the opportunity to ask questions or suggest how WHY could work with DCYF on this project. More information is at https://www.dcyf.wa.gov/services/at-risk-youth/frs. If you have additional questions contact Cole at cole.ketcherside@dcyf.wa.gov.</p>
3.	<p>WHY Goals and Objectives – Putting it all together</p> <p>Resource Assessment</p>	9:35	<p>Kasey Discussion</p> <p>Kasey reviewed where members left off when putting together the Goals and Objectives during last month’s meeting. The “cleaned up” version of the Action Plan was reviewed. Members were shuttled off to two breakout rooms led by Kasey and Mary. The two groups worked out the measurable outcomes to their respective Objectives on the Action Plan, then, came back together to report on what they had discussed.</p> <p>Room 1: Not enough time to finish – the group discussed whether the Facebook was the right vehicle to reach parents. Outcomes included number of posts per month and youth contributions per year. Membership: a packet for new members with an introductory meeting.</p> <p>Room 2: This group discussed incorporating one meeting per year that includes youth, taking into consideration the time and day of week. Regarding articles related to data, the group asked if those articles provide what parents/caregivers need. They then discussed elements regarding education and information sharing – giving a snapshot on an annual cycle with members having the opportunity to share information. The group asked, how do we measure the education/information sharing.</p> <p>Next steps: The co-chairs will formalize thoughts from today’s breakout discussions, send out to members for more suggestions or clarifications. In June, we submit the plan to SPE ahead of schedule, enabling us to cancel the May WHY meeting so members can attend the CCSAP Conference.</p>
4.	<p>Research Update: Cannabis Legalization Impact</p>	10:15	<p>Jason</p> <p>Jason will be sending out the CCSAP Conference information - https://zoom.us/webinar/register/WN_1yzsxlARrGL1DKZgp8j-A</p> <p>Jason provided a summary of the recently published article on young adult cannabis youth of which he was the primary author. Jason reviewed the background of the Young Adult Health Survey (young adults 18-25) and how the survey data was reviewed. He shared the data from the surveys which showed that young adult use of cannabis was significantly higher since legalization, primarily due to use by the 21-25 age group. Prevention needs to exist for the 18-25 youth.</p>

				<p>Contact Jason if you would like to receive further information at jkilmer@uw.edu.</p> <p>Members were given the opportunity to ask questions and make comments.</p>
