

SPE Consortium 5 Year Strategic Plan

Resource Assessment – Timeline and Instructions

Isaac Wulff – HCA/DBHR
SPE Staff

Upcoming Milestones

Resource Assessment

What's a resource assessment?

▶ RA Definition:

- ▶ A resource assessment is a systematic process for examining the current resources in your community/region/state which are reducing risk factors and increasing protective factors. It answers the question: "What's already going on in my area?"

Resource Assessment – Timeline

▶ March

- ▶ Launch Resource Assessment survey to all SPE members

▶ April

- ▶ Collect initial RA survey responses
- ▶ Begin analysis

▶ May

- ▶ Collect final RA survey returns from ALL members

▶ June

- ▶ Finish RA survey analysis and present RA to SPE members on results for feedback

▶ July

- ▶ Finalize Resource Assessment for inclusion into 5 Year plan

RA Survey

Member Involvement

How can I help?

▶ Emailed Survey Link

- ▶ By the end of this week, you should get a survey link from Isaac Wulff.

▶ Take the RA Survey – ONCE PER PROGRAM/STRATEGY

- ▶ We will talk about what constitutes a program/strategy in a bit.

▶ Forward as needed

- ▶ Make sure others who might not be on the SPE list receive the link and know what to do.

What's a “program/strategy”?

- ▶ Please complete the survey *once per program or strategy!*
 - ▶ A “program” could be a service, grant, or subrecipient pathway.
 - ▶ A “strategy” could be policy work or internal development.
- ▶ Rule of Thumb – If it has an acronym or name, it probably needs its own survey.
- ▶ Questions: isaac.wulff@hca.wa.gov

Thank You!

We couldn't do this without you!

Isaac Wulff – isaac.wulff@hca.wa.gov
