

State Prevention Enhancement (SPE) Policy Consortium May 8, 2023

Strategic Plan Finalization

Alicia Hughes, MA, CPP
HCA/DBHR

Plan Walkthrough

- ▶ Overview of new structure

Main Section

- Acknowledgements
- Table of contents
- Executive Summary
- Purpose of SPE Policy Consortium
 - Mission, Values, Principles
- Strategic Plan
 - What guides our work
 - Logic Model
 - Strategic Plan Framework
 - Strategies
 - Future Directions
- Strategic Prevention Framework (SPF) Implementation
 - Getting Started
 - Capacity Building
 - Assessment
 - Planning
 - Implementation
 - Health Equity
 - Evaluation
 - Sustainability

Appendices

- List of Acronyms, Abbreviations, Definitions
- SPE Consortium Partner List
- SPE Consortium History
- Local/community application of strategic plan
- Logic Model
- Data Assessment
 - Washington State Key Data Sources
- SPE Diagram of Resources
 - Resources Assessment
- Significant Events Influencing the Field of Prevention from 2010-2017
- Truncated List of Accomplishments by workgroup
- Contributions
- Logo/partner page

Changes to the Plan

▶ Purpose Section

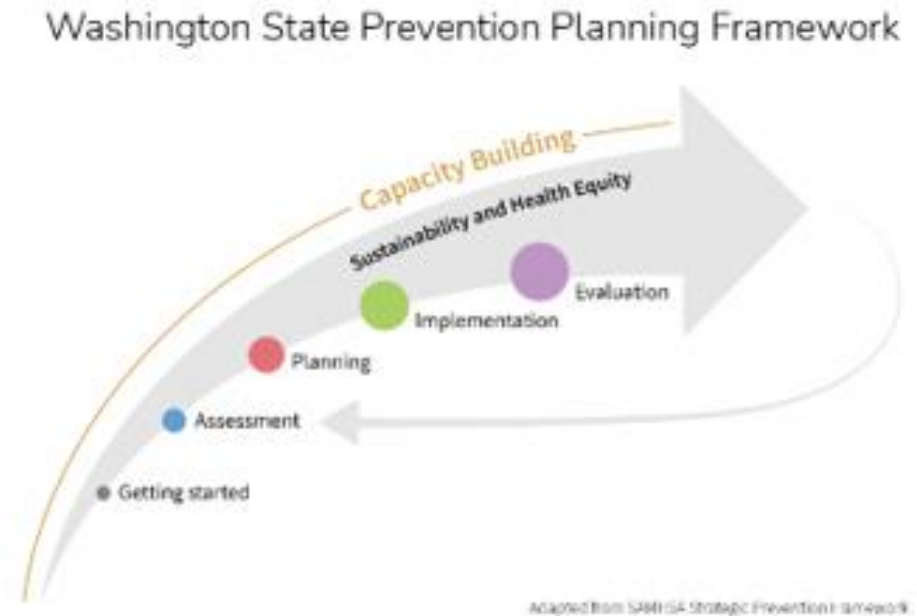

▶ Now to include:

- ▶ Mission, Values
- ▶ Px Frameworks Overview
 - Framework descriptions removed
- ▶ Key Ideas and Principles that guides our work

Changes to the Plan

▶ Five-Year Strategic Plan

- ▶ Now to include:
 - ▶ Overview – shortened version earlier in the plan
 - ➔ Can be extracted as needed for presentations/reports
 - ▶ New visual of SPF with change from cultural competency to health equity
- ▶ Logic Model and description earlier
- ▶ Framework of process
- ▶ Strategies
 - ▶ To be discussed later today

Changes to the Plan

- ▶ Future Directions Section

- ▶ Now to include:

- ▶ What the planning process looks like moving forward
 - ▶ Recommendations and ideas from the Consortium

Changes to the Plan

▶ SPF Implementation

▶ Now to include:

- ▶ How the SPF was used for this process
- ▶ How health equity is considered in all stages of the SPF Process for SPE
- ▶ Reduction of workforce section
 - pulled out, stand alone document
- ▶ Needs and Resources Narrative/Chart reduced
 - Full assessments in appendices

▶ Appendices

- ▶ Full supplemental documents/history (including Consortium history)
- ▶ Truncated list of accomplishments (full version available online)

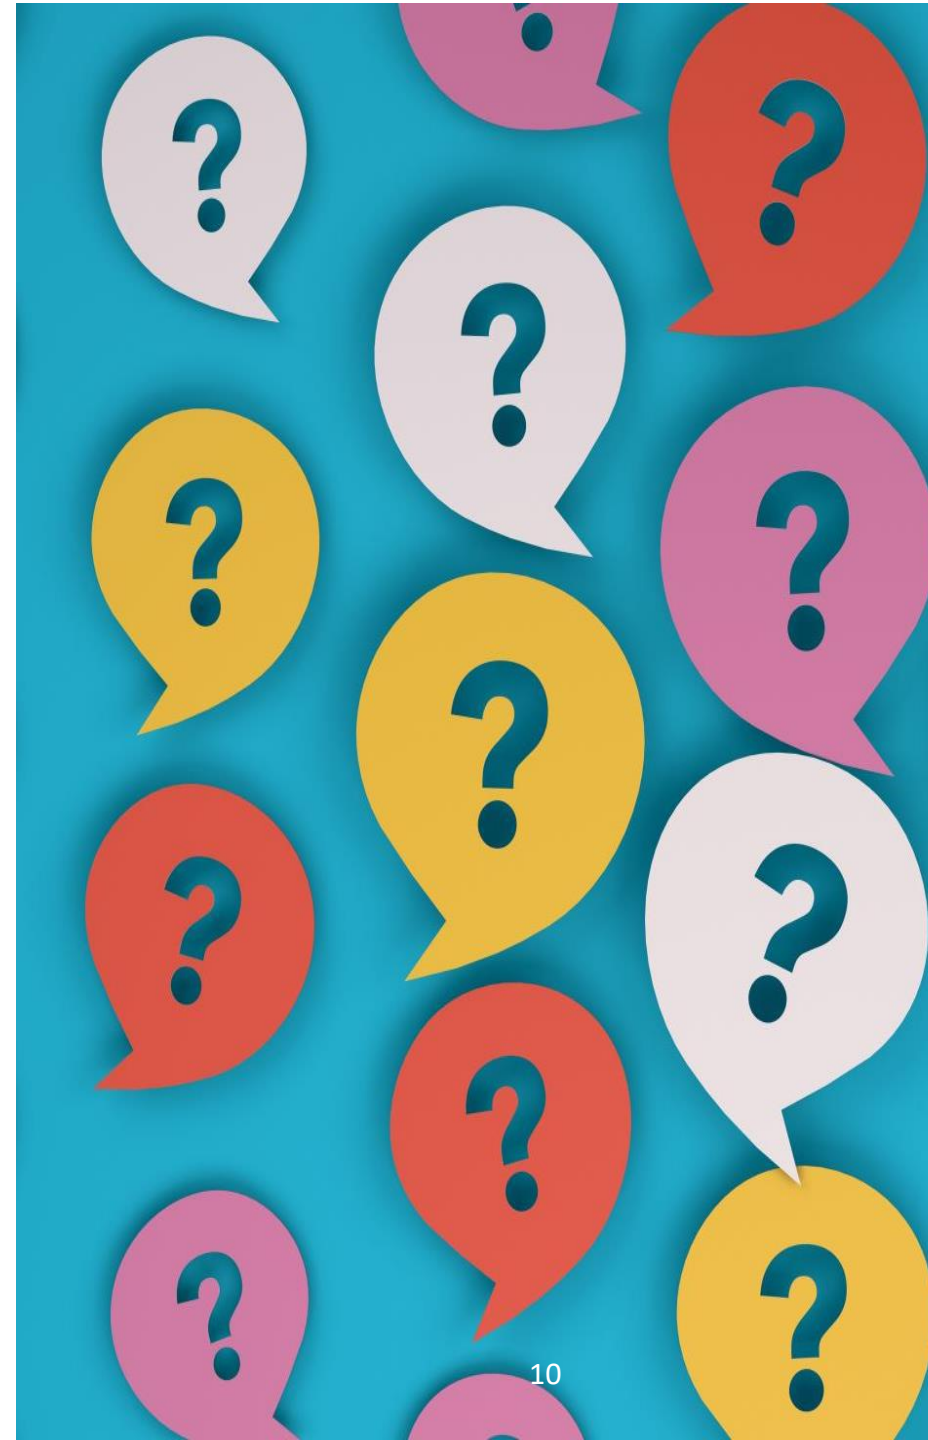

Changes to the Plan

▶ Other:

- ▶ Format (as described earlier)
- ▶ SPE **Policy** Consortium (ensure using full name)

Questions for the Consortium to consider:

- ▶ What is your feedback on the new structure?
- ▶ Will you find this executive summary beneficial for your agency to use/distribute?

SPE Consortium – The Next 5 Years Strategies & Policy Statements

Strategies & Policy Statements Review

Strategic Objective One

Strengthen state collaboration to prevent initiation of substance use and promote mental health.

1. Improve agency representation and diversity in voices in SPE Policy Consortium Membership and Workgroup Membership.
2. Deepen the SPE Consortium and Workgroup member's understanding of the mission, vision, and membership requirements.
3. Develop equity ad-hoc workgroup for SPE Consortium.
4. Engage SPE Consortium partners during off-months in planning and policy discussions.
5. Explore opportunities for collaboration among SPE Members and Workgroups
6. Ensure continuation of all five SPE Workgroups.

Strategic Objective Two

Utilizing needs assessment data in Washington State, create and disseminate communication plans, campaigns, trainings, and resources to better serve populations in need.

1. Collect and analyze data on behavioral health needs and inequities to make data-driven, informed decisions on policy and programming.
2. The SPE Policy Consortium will support the communication and dissemination of Healthy Youth Survey and Young Adult Survey results.
3. SPE Workgroups to address emergent issues through communication outlets, including online presence, and to various networks and stakeholders.
4. Disseminate public education, communication tools, and resources, ensuring best practices in prevention messaging and alignment with prevention goals.

Strategic Objective Three

Strengthen the long-term sustainability of the behavioral health promotion and substance use disorder prevention workforce.

1. Support, share, and advocate for training to enhance the prevention and promotion workforce in Washington State.
2. Provide opportunities for SPE Consortium to network and information share to allow for activation of providers engaging in prevention programs and strategies.
3. Share and support program efforts, data sharing, and evaluation tools to reduce duplication of efforts and services, and increase capacity.

Strategic Objective Four

Commit and dedicate efforts to implementing substance use disorder prevention and mental health promotion programs to strengthen protective factors and reduce risk factors.

1. Develop a shared definition of prevention, the continuum of care, evidence-based practices, and prevention services across the lifespan.
2. Utilize data to guide and inform prevention decision-making
3. Through each SPE Policy Workgroup, provide valuable educational tools and resources for parents, guardians coalitions, prevention partners, influential adults, and other community members.
4. Partner agencies to implement and evaluate upstream, primary prevention services to prevent misuse of substances among youth and young adults through evidence- and research-based, promising, and culturally attuned adaptations of programs.
5. Monitor for emerging mental health and drug trends to deploy prevention and intervention resources quickly.

Strategic Objective Five

Implement environmental strategies to: reduce access and availability of substances; change community and social norms of substance use; and reduce stigma in accessing behavioral health services.

1. Review policies within state task forces, workgroups, and organizations regarding substance use disorder, suicide prevention and mental health support.
2. Analyze legislation that has a public health impact each year.
3. Support public policy at the community and local levels to change risk and protective factors surrounding substance use and mental health needs.

Questions for the Consortium to consider:

- ▶ Feedback on Strategic Objectives 1-5
 - ▶ How can we ensure we are doing the right follow up and action on these objectives?
 - ▶ Is there a particular strategy you would like to be involved with?
 - ▶ Is anything else missing that we didn't cover already:
 - ▶ Capacity building
 - ▶ Planning
 - ▶ Implementation
 - ▶ Evaluation

Future Directions Review

- ▶ Strategic Planning
- ▶ Strategy Exploration
- ▶ SPE Policy Consortium Needs
- ▶ Workgroup Needs

Questions for the Consortium to consider:

- ▶ Do you think anything is missing from the draft right now?

Additional Thoughts

▶ Feedback or Questions
