

Too Good for Drugs: Virtual Adaptations

1. Used Google Slides to create a PowerPoint presentation with Bitmoji

2. Recorded the lesson via Camtasia software (which recorded the screen and the narrative)

3. Uploaded and rendered the video to be shared via a URL

4. The URL was shared with students via Google Classroom

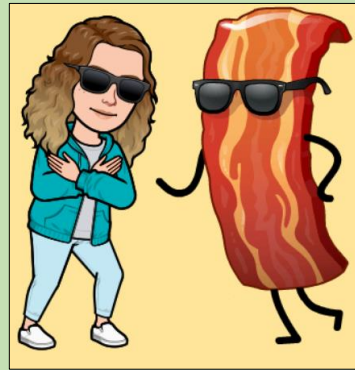

5. Students completed the Pre/Post Survey via Google Forms and filled out their workbooks to complete each lesson

Google Forms

Melinda Brown, SAP
East Valley High School

Kirsten Fuchs, Coordinator
East Valley Community Coalition
kfuchs@esd101.net

Why TGFD?

Decrease risk associated with favorable attitudes towards substance use for youth (alcohol, marijuana, tobacco, e-cigarette use)

Increase perception of harm of youth substance use

CSAP Strategy: Education / Problem ID and Referral

Survey: Perceived Harm/Risk
