

Action Plan Improvement Activity

Erin Lamouret; Program and Policy Manager
SUD Prevention and Mental Health Promotion

Opioid Prevention Workgroup

▶ Goal

- ▶ To facilitate and collaborate across state agencies, community organizations, coalitions, local health jurisdictions, providers, and other partner to achieve the six primary objectives of the State Opioid and Overdose Response Plan's (SOORP) first goal, which is to prevent opioid and other substance misuse, and other associated harms.

Opioid Prevention Workgroup

► Objectives

- ▶ 1. Implement strategies to prevent misuse of opioids and other substances in communities, particularly among youth and young adults
- ▶ 2. Promote the use of opioid prescribing best practices among health care providers
- ▶ 3. Increase the use of prescription drug monitoring programs to identify opioid use patterns and coordinate care

Opioid Prevention Workgroup

► Objectives

- ▶ 4. Educate patients on best practices for managing acute pain and risks / benefits of opioids
- ▶ 5. Promote the use of safe home storage and appropriate disposal of unused or expired prescription medication
- ▶ 6. Decrease the supply of illegal opioids

Action Plan Update

- ▶ Action Plan Update: Mural Activity
- ▶ Opioid Prevention Workgroup Action Plan Update • HCA Washington

Review of Action Items

Implement strategies to prevent misuse of opioids and other substances in communities, particularly among youth and young adults.

Promote the use of opioid prescribing best practices among health care providers.

Increase the use of prescription drug monitoring programs to identify opioid use patterns and coordinate care.

Educate patients on best practices for managing acute pain and risks/benefits of opioids.

Promote the use of safe home storage and appropriate disposal of unused or expired prescription medication.

Decrease the supply of illegal opioids.

Action Plan Update

Success Measures

Select changes to prevent misuse of opioids and other substances, particularly among youth and young adults.

Promote the use of opioid prescribing best practices among health care providers.

Increase the use of prescription drug monitoring programs to identify opioid use patterns and coordinate care.

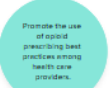

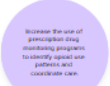

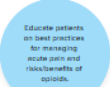

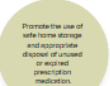

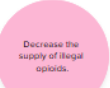

Educate patients on best practices for managing acute pain and risks/benefits of opioids.

Promote the use of safe home storage and appropriate disposal of unused or expired prescription medication.

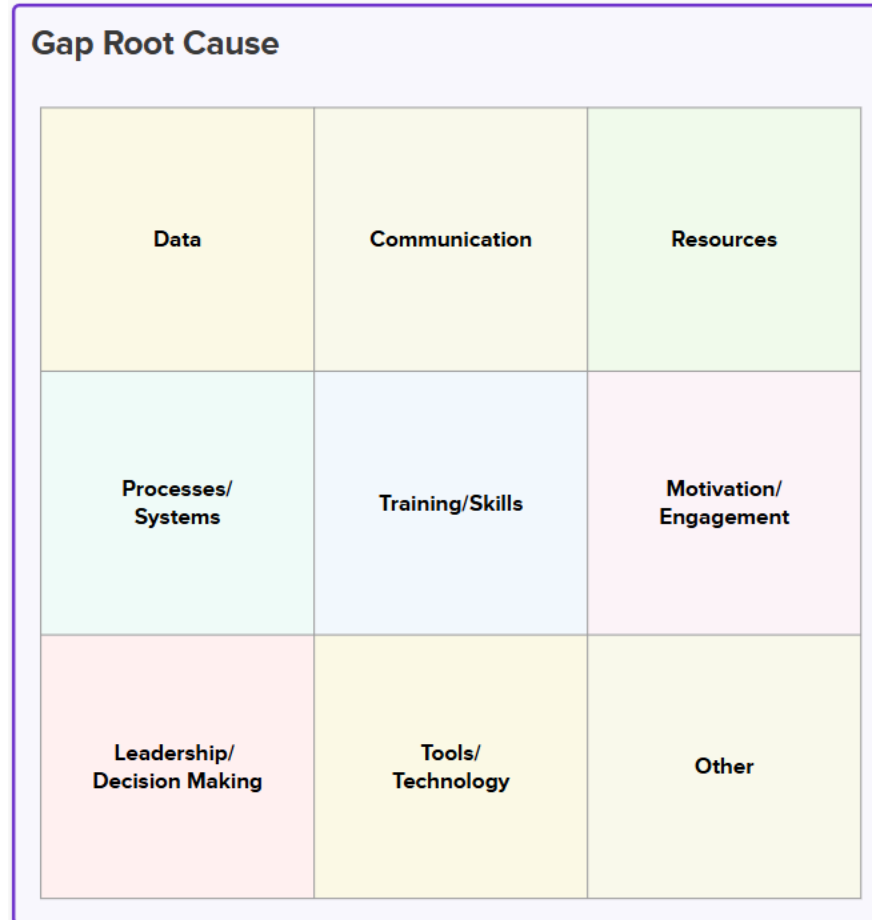

Decrease the supply of illegal opioids.

Action Plan Update

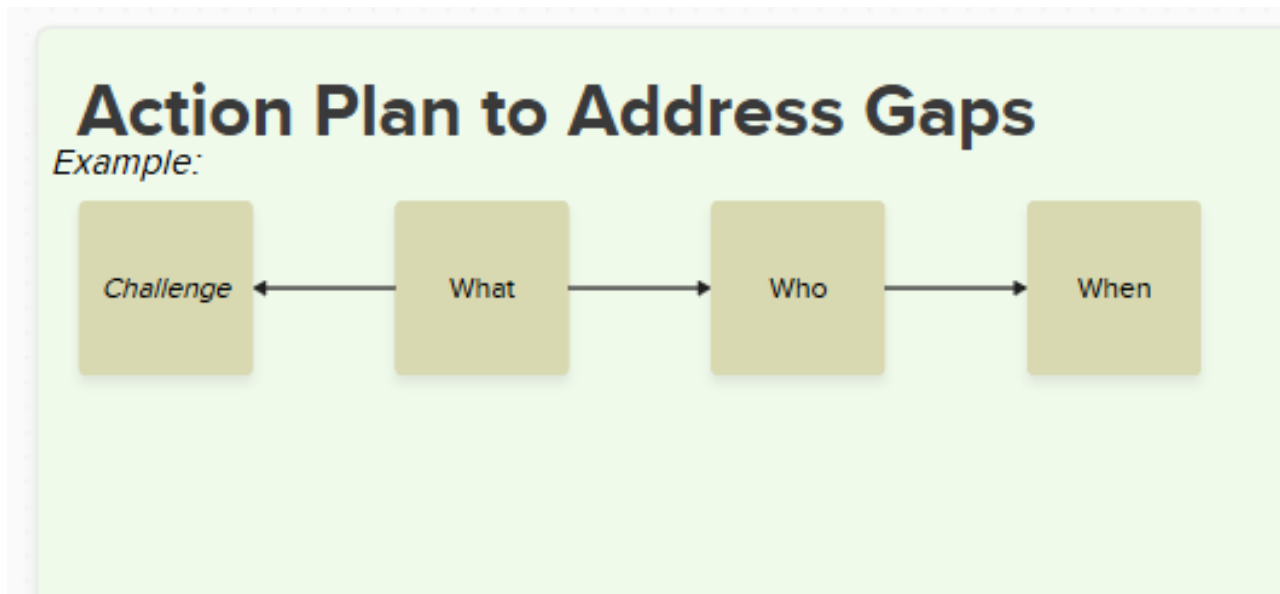

Reflection & Current State

 Implement changes to prevent misuse of opioids and other substances, particularly among youth and young adults.		
 Promote the use of opioid prescribing best practices among health care providers.		
 Increase the use of prescription drug monitoring programs to identify opioid use patterns and coordinate care.		
 Educate patients on best practices for managing acute pain and risks/benefits of opioids.		
 Promote the use of safe home storage and appropriate disposal of unused or expired prescription medication.		
 Decrease the supply of illegal opioids.
