No	Agenda Items	Time	Lead	Summary Meeting Notes
1	Welcome, introductions and Team Building	9:00	Mary Segawa WHY Co-Chair	Opening question: Tell us one upcoming highlight of your summer! Attendees introduced themselves and shared highlights of the upcoming summer.
2	Understanding youth and young adult data on underage drinking and marijuana use: Healthy Youth Survey (HYS), COVID Student Survey, (CSS), and Young Adult Health Survey (YAHS)	9:15	Jason Kilmer, Sandy Salivaras-Bodner	Mary introduced Jason and Sandy's work preparing and conducting surveys and then crunching the data. Sandy shared marijuana and alcohol data from the HYS. Healthy People 2030 has set a target of 5.8% for past 30 day marijuana use by 10 th graders. Sandy moved on to alcohol HYS data and explained the trends and things of which to be aware. Key take aways from her review were shared. Sandy will make the PPT available. Action: Communication Team needs to address the data point of 10 th graders getting alcohol with parental permission. Attendees were asked to consider what other

				<p>sources, beside parents and siblings, might youth be getting alcohol from? And how we might be able to use STN as a platform for education on this topic.</p> <p>Jason began with the CSS. Jason gave a bit of history and the differences between HYS and CSS. The data will be shared with members. Members were given the opportunity to ask questions regarding the CSS data.</p> <p>Next Jason shared data gathered on the YAHS. It is not a random sample per se. Jason shared the data over eight cohorts regarding marijuana. Other data concerning other substances are decreasing; marijuana, however, is going up.</p> <p>Members asked, how does regular marijuana use compare with regular alcohol use? Jason shared 30% at least monthly cannabis use; alcohol 51% at least monthly. 50% respondents reported any use of both substances.</p>
3	Break	10:15		
4	Delta-8 and other cannabinoids in the absence of legislation	10:20	Mary	<p>Members interested in serving on the WHY Coalition’s Delta-8 team, please contact Martha.</p> <p>Mary gave a bit of the history of the Delta-9 v. Delta-8 products and legislation. Delta-8 products can be banned from licensed stores (tobacco, vape, alcohol). Product packaging pictures, especially of look-alike products, were shared. Mary can provide articles and information to members who are interested.</p> <p>Attendees were given the opportunity to ask questions or make comments. It is interesting that the” manufacturers of the non-infused products aren’t demanding “cease and desist” orders regarding the look-alike infused products.</p>
5	WHY Goals and Objectives – Final Draft	10:25	Kasey	Kasey reviewed the SPE timeline and next steps.
6	Action <ul style="list-style-type: none"> Alcohol Compliance Assessment Project (CAP) Tool Update 	10:35	Kasey, Kendra	<p>The CAP has launched. If you can share with your networks, please do so. The CAP site link will be shared out with the notes, in the chat box and email reminders. Members were given the opportunity to share their experiences.</p> <p>The information will be shared after the study is complete. This will tie into our work in reducing youth alcohol availability.</p>
7	Updates <ul style="list-style-type: none"> Communications Team 	10:40	Martha	<p>Communications Team –</p> <p>May: The team has a new area on WA Portal for the Communications team work. The space will be used for our collaborative work on reviewing the STN website and/or articles to post on STN. DOH has made a media buy to extend the languages available for some areas of STN. We talked about various ideas for STN facebook posts.</p> <p>June: The team discussed the current stumbling block to obtaining the STN facebook and website metrics. We reviewed the areas of the draft WHY Coalition Action Plan affecting the Communications Team.</p>
8	Meeting wrap up	10:45	Martha	Martha shared the action items from this meeting.
9	Round Table Member updates	10:47		Prevention Voices WA is a network and skill building group dedicated to increase participation in Washington State policymaking around substance use prevention and mental health promotion. We have relationships along the whole

			<p>spectrum of policymaker engagement from agency-level staff, to government employees, to community members, to national organizations.
