

# Drug Endangered Children: Online Awareness Workshop

## ***Learning Objectives:***

- 1) Gain awareness about drug endangered children and the risks they face so that professions interacting with these victims recognize the need to facilitate multi-disciplinary, collaborative responses to better meet the needs of these children.***
- 2) Understand the many opportunities (often missed) to identify children living in dangerous drug environments and the benefits of intervention at the earliest possible point when endangerment is suspected to reduce physical and psychological harm to children.***
- 3) Learn what a multidisciplinary collaborative response looks like and how it incorporates the unique and often limited resources within a community and applies them in a manner that provides better care for drug endangered children.***

## **TWO-PART SERIES**

### ***Session 1 of 2***

**FREE**

## **DATE & TIME**

July 21, 2021

10:00 AM - 12:00 PM PDT

**VIA ZOOM**
