

NORTHWEST PREVENTION TECHNOLOGY TRANSFER CENTER EMERGING TOPICS IN PREVENTION SCIENCE MEDIA SERIES

Exploring HOPE – Healthy Outcomes from Positive Experiences

DATE AND TIME

April 29, 2020 1:00 pm - 2:30 pm Alaska
2:00 pm - 3:30 pm Pacific
3:00 pm - 4:30 pm Mountain

AUDIENCE

Community and state-level prevention practitioners, allied health partners and community members, and treatment professionals working to prevent substance misuse.

DESCRIPTION

The Science of the Positive framework is based upon the realization that ‘The Positive’ exists in ourselves, our communities and our cultures. The new language of HOPE – Healthy Outcomes from Positive Experiences, utilizes The Cycle of Transformation which includes domains of Spirit – Science – Action -Return. In this webinar we begin by honoring the Spirit that motivates all of us in all of our work. Through science we will explore the powerful lifelong effects of positive childhood experiences even in the midst of adversity. We will also explain how the building blocks of HOPE emerged through careful review of evidence. This session will conclude by providing attendees with flexible building blocks to apply HOPE at individual, family, community and societal levels to prevent adversity, support resilience and promote healing and health equity based upon positive childhood experiences (PCEs).

OBJECTIVES

1. To introduce participants to the Science of the Positive Framework.
2. To explore the science and language of HOPE – Healthy Outcomes from Positive Experiences.
3. To discuss strategies for integrating PCEs into prevention, intervention and policy domains.

PRESENTERS

Robert Sege, MD, PhD is a pediatrician at the Floating Hospital for Children at Tufts Medical Center and a Professor of Pediatrics and Medicine at Tufts University School of Medicine, where he directs the new Center for Community-engaged Medicine. Dr. Sege is a Senior Fellow at the Center for the Study of Social Policy in Washington, is part of the Leadership Action Team for Massachusetts Essentials for Childhood Team, and serves on the boards of the Massachusetts Children’s Trust and Prevent Child Abuse America. He received the 2019 Ray E. Helfer award from the Alliance of Children’s Trusts and the American Academy of Pediatrics. He has served on national committees for the American Academy

of Pediatrics and has been lead author on several important AAP policies. His extensive speaking and publication list include contributions to the prevention and treatment of child maltreatment and youth violence.

Dina Burstein, MD, MPH, FAAP is the Healthy Outcomes for Positive Experiences (HOPE) Project Director at the Center for Community-Engaged Medicine. Dr. Burstein is an experienced physician, healthcare project designer, and leader with over twenty years of success in scientific research, grant writing, analysis, training, and clinical practice. Previously, Dr. Burstein was an Assistant Professor of Emergency Medicine at the Warren Alpert Medical School of Brown University, directing injury prevention focused community outreach programming and community-based research projects, as well as teaching and mentoring undergraduate, graduate, and medical students. Her aim is to

enhance the well-being of individuals and the community by presenting and promoting programs while leveraging proficiency in research, care management, injury prevention and clinical effectiveness.

Jeffrey Linkenbach, EdD, MA is the Founding Director & Research Scientist at The Montana Institute, who has developed national award-winning science-based programs to change norms. He is one of the co-developers of HOPE – Healthy Outcomes from Positive Experiences, and serves as a Co-Investigator at the HOPE Center in the Tufts University Medical School. He is recognized for his pioneering development of the Science of the Positive Framework and the Positive Community Norms Approach which are being utilized by tribal, federal, state and local organizations to achieve positive change and

transformation around challenging issues such as child maltreatment, substance abuse, suicide, traffic safety and community-engaged leadership.
