

Community Based Prevention Capacity Building Grant

The Washington State Department of Health (DOH) is excited announce the Community Based Prevention Capacity Building Grant. This funding opportunity is an expansion of The DOH's Youth Cannabis and Commercial Tobacco Prevention Program (YCCTPP).

What is the Community Based Prevention Capacity Building Grant?

The purpose of YCCTPP is to address youth cannabis and commercial tobacco prevention through policy, systems, and environmental change (PSE) efforts. This community Based Prevent Capacity Building Grants program is intended to support new and emerging partners in addressing prevention and community wellness.

What Types of Projects will be funded?

Applicants are encouraged to submit proposals that address policies, systems and environmental change that impact youth cannabis and commercial tobacco use prevention and/or root causes of youth cannabis and commercial tobacco use. Unique and creative projects are encouraged as long the applicant can make a connection to youth cannabis and commercial tobacco use prevention and/or root causes of use.

Who is eligible to apply for funding?

All Applicants must be located in Washington State. Eligible applicants are- 501(c)(3) public charities, community-based organizations, local health jurisdictions, city governments, local health jurisdictions, government entities, schools, school districts, educational service districts, coalitions, or collaboratives. Applications from organizations that do not have 501(c)(3) status will be accepted if organization has a fiscal sponsor and can produce a completed sponsorship agreement.

Awards will range from \$20,000 - \$100,000 annually for a maximum of 15 grantees.
